1. Letter to Shareholders

Dear Shareholders,

The global economy showed a steady recovery last year, including low inflation, low interest rates and relatively modest economic growth. Although the scale of the global PC market continues to shrink and consolidate, the competition among brands is also becoming severe, Wistron continued to optimize its operation and dispersion of operating risks. With investments in new ventures and efforts of employees, Wistron has achieved significant revenue growth. On behalf of all Wistron employees, we would like to express our sincere appreciation to our shareholders for your support for Wistron's continuous growth.

2017 Financial and Operation Results

In 2017, Wistron's consolidated annual revenue reached a new high of NT\$836.1 billion and consolidated operating profit was NT\$5.914 billion. The consolidated profit before tax reached NT\$6.158 billion and profit attributable to Owners of the Company was NT\$3.886 billion. Meanwhile, the earnings per share was NT\$1.48.

Overall revenue growth was about 27% versus the previous year. During the same period, the rising cost of raw materials and increased recruitment costs due to tough labor supply conditions in China resulted in a slightly lower gross profit margin than the previous year. However, due to well-controlled operating costs, the profit after tax (PAT) slightly increased from the previous year and the overall financials remained stable.

Regarding product performance in terms of shipments, key growth drivers were smartphones, rugged handhelds, smart appliances and (VOIP) Internet telephony, while the number of notebooks and servers shipped was similar to last year. Due to the overall decline in TV OEM related demand, the Company experienced a relative decrease in the number of shipments. Although the market has matured for monitors and desktops, these products demonstrated slight growth through continuous efforts to enhance competitiveness.

In response to the continued shrinkage of the global PC market, Wistron aimed to strengthen customer satisfaction, provide the best quality, enhance current customer relationships, optimize its existing customers and portfolio of products, and develop intelligent products (such as smart security, medical and home products and services). We also drove digital transformation, adjusted the organization to promote more young talent to management levels, and continued to improve operational efficiency and increase capacity utilization to ensure continuous growth and reasonable profitability.

At Wistron, corporate governance structures, sustainability, and social responsibility are as important as business growth. For the fourth consecutive year, Wistron was certified by the Taiwan Stock Exchange as being in the top 20% among all listed companies with best corporate governance practices. These achievements fully demonstrate the level of recognition we have been able to receive from domestic and foreign institutions for our performance in corporate governance, our response to climate changes, and our efforts in the disclosure of CSR information.

2018 Business and Operation Focus

For 2018, Wistron's major operation focuses are still the same as last year's three main axes: (1) reinvigorate the core businesses, (2) scale new businesses, and (3) drive digital transformation.

With the continuously growing trend toward cloud computing and artificial intelligence, we are in a favorable position in the industry. We offer innovative products, services and systems, connecting hardware such as personal computers, servers, mobile devices, and cloud data systems while enabling close integration with software services. We will continue to strengthen our technology leadership, quality reliability, and innovative services, while optimizing operational performance to achieve revenue and profit growth.

For core businesses, Wistron will focus on growth opportunities in the personal computer, server, and display markets through customer/product portfolio adjustment, and new technology investments for gross profit rate improvement. We will enhance internal operational efficiency and core competitiveness by strengthening the digital transformation of data applications and by providing more transparent, timely, effective and forward-looking information to manufacturing, materials and R&D teams in order to optimize the quality and speed of decision-making.

For new businesses, Wistron also accelerated investment into new areas. Our development will focus on solutions related to enterprise cloud services, Internet of Things, medical equipment and electric vehicles. In addition, we will find partners through venture capital investment to deepen our product and services portfolio.

The primary goal of Wistron's digital transformation drive is to establish high-performance teams and achieve healthy business growth of business. By mastering big data and artificial intelligence technologies, we adopt Industry 4.0 into manufacturing management, and accelerate decision-making process in R&D management.

"Professional," "Care," and "Value" represent three focus areas for our management teams' mindset, behavior, and outcome that we are emphasizing to deliver this year. We continue to emphasis and strengthen upon our "corporate beliefs" of customer focus, integrity, innovation, and pursuit of excellence. We aim to instill these beliefs in a practical way into our operations to shape a company that radiates positive energy and positive business values.

Outlook for the Future

Looking forward toward the tremendous changes in the global economy and technology, Wistron will accelerate the pace of its transformation. Although the major international financial forecast agencies are optimistic about the current global economic climate, we still need to pay attention to whether trade protectionism will affect future global economic development. Furthermore, economic and environmental topics like U.S. currency and exchange rate policy, cross-strait economic and trade trends, and global climate change issues are also the challenges and opportunities that we must keep watching and facing.

As to the trend of smart technology in the era of the digital economy, the mode of industrial smart production and the discussion of how artificial intelligence and machine learning penetrate into the Internet will become the main battlefield for science and technology manufacturers in the next few years. Therefore, the Internet of Things application and Smart Technology will rapidly infiltrate the industry and inevitably lead to changes in the application of technology. All such directions deserve our continued attention.

In the long-term planning of corporate sustainability, Wistron follows the philosophy of "altruism" and adopts the vision of "using science and technology to enhance the quality of life and environment" as a corporate vision to steadily take during every step of its sustainable development. Furthermore, internally at all stages of our operations, we intend to reduce our impact on the environment; meanwhile, externally we provide products and services that have a positive impact on the quality of life and environment.

"Think Great and Act Smart" is the main theme of our core attitude that we emphasize for our digital transformation. To achieve business goals we adopt the strategy of diversification planning and will continue to improve the quality of technology and services allowing customers to continuously feel confident of the value that we can provide now and in the future. Technologies utilized within our sustainable business operations are also supporting the future for both our society and the environment while building long-term value for our shareholders. On behalf of Wistron employees, we wish to thank all our shareholders for your continued support and confidence.

Chairman

2. Company Introduction

- Approximately 80,000 personnel as of December 31, 2017.
- Publicly listed company on the Taiwan Stock Exchange. (Stock symbol 3231.tw or 3231.tt)

2.2 Business Summary

With headquarters in Taipei, Taiwan, Wistron Corporation is a leading ODM and service company that focuses on providing leading OEMs in the global technology industry with quality and effective end-to-end services from initial product conceptualization and product development to volume manufacturing, after-sales services and e-waste recycling. Wistron provides customers with sophisticated and comprehensive design and system integration capabilities, reliable and cost-effective production and logistics support, and quality product development and after-sales services. The product portfolio covers a wide range of technology products including notebook personal computers ("PCs"), tablets, mobile communication products, server and storage systems, desktop PCs, LCD TV, and other consumer electronics. Wistron is one of the largest manufacturers of notebook PCs in the world in terms of global shipment volumes and a leading manufacturer of desktop, server and storage systems and handheld devices.

As a leading ODM manufacturer, Wistron sells products to prominent vendors who distribute these products under their own brands. Wistron views customers as partners and typically work closely with them to develop existing and new products. Wistron manages operations through strategic business groups organized by major products and services categories. Each strategic business group has its own focused group of products and customers, as well as dedicated personnel and manufacturing facilities to handle end-to-end responsibilities for its own customers, products, and services. Wistron believes this "end-to-end" approach allows better focus on customer and profit-oriented R&D, cost management, production efficiency, and individual customer needs, which

enhances long-term business performance and customer loyalty. Wistron manages other aspects of business operations, such as company-wide strategy planning, finance, investment, human resources, information systems, and legal compliance on a centralized basis to take advantage of economies of scale and other synergies.

Wistron employs over 80,000 personnel worldwide, strategically located in Asia, America and Europe in various design, manufacturing, R&D, e-waste recycling and after-sales services centers. Manufacturing facilities are located in China, Taiwan, Malaysia, Mexico and Czech Republic. Wistron maintains logistics facilities--comprising more than 70 logistics hubs worldwide--close to the facilities of customers in the United States, Europe and Asia. For e-waste recycling, the operations are located in United States and China. The after-sales service partner network spans three continents in countries such as the United States, Brazil, Chile, Colombia, the Czech Republic, the PRC, Taiwan, Singapore, Hong Kong, Japan, Turkey, Philippines, Mexico and India.

Our network of manufacturing facilities, customer services centers and logistics facilities provides us with a global presence which allows our customers worldwide to work closely with us from the design and development phases to the manufacturing, distribution and after-sales services stages. Our operations network also permits us to simultaneously undertake multi-location manufacturing and to arrange timely delivery to our customers or other end-users anywhere worldwide, often resulting in cost savings on transportation and tariffs. In addition, our management culture and experience have helped us achieve closer ties to our customers and greater economies of scale, while meeting the specific requirements of our customers. This discipline will help us achieve our goal of becoming the leading technology service provider in each new generation of consumer electronics products.

 - The Chengdu site passed the IECQ QC080000:2012 renew certification.
- Feb. 2018 Wistron Headquarters (Taipei) / Hsinchu (Taiwan) site passed the ISO9001:2015 transition certification and IECQ QC080000:2012 renew certification.
- Mar. 2018 Wistron Headquarters (Taipei) / Hsinchu (Taiwan) site passed the ISO14001:2015 transition certification and OHSAS18001:2007 renew certification.

2.5 Organization Structure

2.5.1 Business Organization

Wistron organizes operations into six strategic business groups in order to better allocate resources and further enhance production efficiency and overall business performance. Business operations are segmented into the following six major business groups, with each of them focusing on a clearly delineated product, customer and service portfolio:

Computing Products Business Group ("CPBG") — CPBG focuses on producing personal computing products, industrial PC and display products.

Consumer and Smart Products Business Group ("CSBG") — CSBG focuses on producing smart device products (Connected home IoT, Smart Phone, mobile terminals) and connected audio products.

Enterprise Business Group ("*EBG*") — EBG focuses on producing server and storage systems, fiber channel storage arrays, Telecom, accessories and management software and other enterprise applications such as business automation, IP telephony application and storage applications.

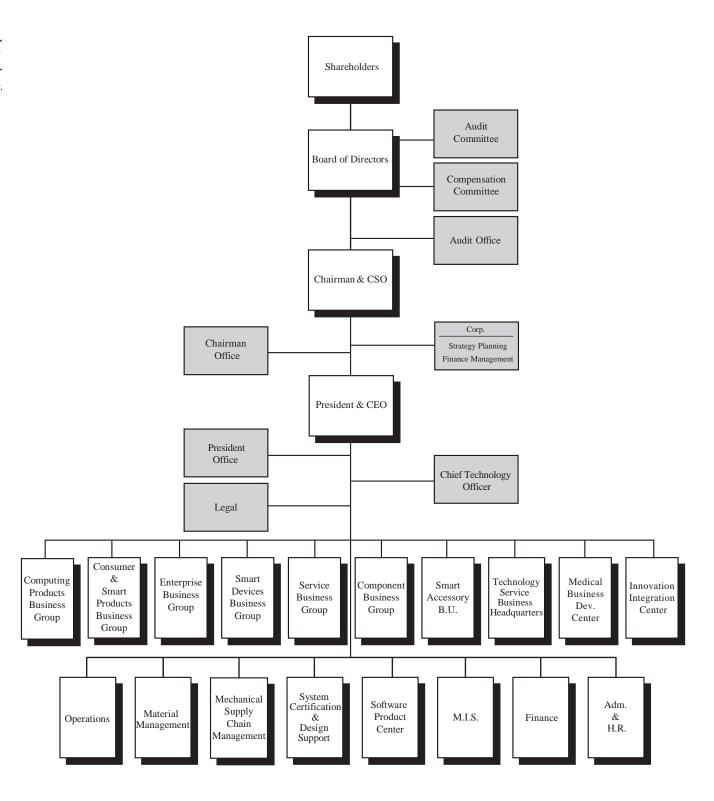

Smart Devices Business Group ("SDBG") — SDBG focusing on large volume CM manufacture of smart devices.

Services Business Group ("SBG") — SBG focuses on providing after-sales services including product replacement, repair and support and product support solutions, both for products we manufacture and for products produced by other manufacturers.

Component Business Group ("*CBG*") — CBG focuses on producing optical component products. And the collection, dismantling, refining...recycling related business for electronic wastes.

Each strategic business group has been allocated its own focused group of products and customers, as well as dedicated personnel and manufacturing/service facilities, and accounts for its own profits and losses. Each group has end-to-end responsibilities for its own customers, products, and services which include business origination, marketing, account planning, R&D, product design and development, component sourcing, mass production, delivery and logistics support, customer services, billings, collection of receivables, realization of profits, and financial reporting. This result-oriented scheme aims at instilling each business group with a sense of ownership to track its business performance, delineating clearly the responsibilities among the business groups and creating clear strategic focus for each business group in terms of product offerings and customer services.

2.5.2 Organization Chart

2.5.3 Department functions

Department	Main responsibilities
	1. Assist management to ensure that the internal audit system
	is effectively designed and well implemented to improve the
	operation and to enhance the value of the organization.
	2. Assist managers to evaluate and improve the procedure of
Audit office	risk management, internal control, and corporate governance
	through systematic and effective procedures to achieve
	organization's goals.
	3. Assist the Audit Committee to supervise the implementation of
	internal control system and corporate governance.
	Assists the Chairman & CSO to evaluate and analyze external
Chairman Office	investment and business performance for the Company and its
	subsidiaries to achieve corporate goals.
Sanata and Diamain a Office	Responsible for the overall company's strategic planning,
Strategy Planning Office	construction, promotion and long-term development.
Finance Management	Treasury, financial management, and investment.
	Assist the President & CEO to evaluate and analyze the
President Office	Company's business performance and propose solutions to
	achieve corporate goals.
	Responsible for the construction and management of the
Chief Technology Officer	company's R&D team, resources and the environment, and
	enhancement of research efficiency and competitiveness.
	Corporate legal affairs, contracts, and business-related legal
Legal	consultative services.
Computing Products	Product management, development and manufacturing for
Business Group	personal computer, industrial PC and display products.
	Product management, development and manufacturing for smart
Consumer and Smart	products (Connected home IoT, Smart Phone, mobile terminals)
Products Business Group	and connected audio products.
	Product management, development, and manufacturing for server
Enterprise Business Group	and storage products.
	Product management, development and manufacturing for smart
Smart Devices Business Group	device products.
Service Business Group	Customer service and technical support.
9	Product Management, development and manufacturing for optical
Component Business Group	component products. The collection, dismantling, refining
1	recycling related business for electronic wastes.
	Deal with the development, product management, manufacturing
Smart Accessory Business Unit	and marketing of the smart accessories.

Department	Main responsibilities
Technology Service	Responsible for the integration of technology and product
Business Headquarters	development to provide value-added platform for customers.
Medical Business	Responsible for the research, development, and production of
Development Center	professional medical devices and solutions.
Innovation Integration Center	By integrating technology and product development capability to provide prototyping, production & marketing service to startups customers.
Operations	Global production, manufacturing capacity allocation, and efficiency enhancement among factories.
Material Management	Global material planning, purchasing, logistic support, and supplier quality management.
Mechanical Supply	Global mechanical supplier purchasing, quality control and
Chain Management	tooling management.
System Certification	System certification, design supporting, quality assurance and
& Design Support	improvement actions.
Software Product Center	Development of system application software.
M.I.S.	Information system development and design.
Finance	Finance, accounting service, tax service, and providing reports to profit units.
Administration and H.R.	Human resource, employee communication, employee training and general affairs.

2.6 Products

Current Main Products and Services:

- (1) Notebook computers
- (2) Smart phones and handheld devices
- (3) Desktop computers and All-in-One (AIO) computers
- (4) TVs, Monitors
- (5) Voice over Internet Protocol (VoIP) phones
- (6) Servers and network storage facilities
- (7) Industrial application devices (IPC and Rugged devices)
- (8) After-sales services
- (9) Green recycling services
- (10) Display applications on backlight, LCM, Touch screen and Lamination services
- (11) Educational technology services

2.7 Services

2.7.1 Design

Wistron provides comprehensive, in-depth, integrated design services, utilizing extensive product development experience, equipment, and quality processes. Wistron addresses all related engineering challenges, such as material/styling considerations, component selection, functionality, testing challenges, volume manufacturing stress, packaging, and environmental impact. Wistron's teams provide a range of services, including comprehensive thermal, power, structural and reliability engineering services, specifically tailored for ICT products. Extensively equipped simulation and compatibility test teams and labs utilize a vast array of equipment and technology to allow for market specific and global accreditation approvals.

2.7.2 Manufacturing

Wistron's manufacturing experience ensures the quality of the overall production processes and systems. From in-coming components to OOB (out-of-box) QA, a full suite of tests and analysis are conducted with industry-leading testing including Wistron propriety equipment and processes. Manufacturing facilities offer a complete set of services from PCB to systems assembly, including BTO/CTO. Manufacturing IT systems support the manufacturing process and quality management reporting, while suppliers' portals feature all procurement-related activities to ensure supplier performance management. To facilitate data collaboration, Wistron supports any-to-any B2B exchange with customers.

2.7.3 After-sales service

Wistron offers a variety of flexible, customized service business models. Programs such as hub-to-hub FRU (field replaceable unit) swap, hub-to-ASP, and CRU (customer replaceable unit) complement depot options and other related programs. After-sales service teams support products produced by Wistron or other companies. Wistron possesses extensive experience working with customers' own service/repair teams, as well as their outsourced service partners. Highly integrated IT platforms are linked to all levels of the service chain to manage the complex reverse logistics, material management, and reporting systems. Service documentation and repair training support customers' own internal and channel service training programs.

Design	Manufacturing	After-sales service					
Industrial design	Supplier quality/	Product life cycle planning					
Prototype building	performance management	Hub management					
PCB circuit design and layout	Component and	Asset recovery					
 Certification qualification 	subsystem assembly	Life-time buy component					
testing and processing	• Lead-free PCB assembly	management					
(agency approvals)	Automatic optical inspector	Service traffic planning					
Circuit test development	Automatic in-circuit testing	Refurbishment					
 Compatibility testing 	Functional testing	Returns processing					
• Environmental stress	System manufacturing	Customized report					
testing / EMC testing	• CTO (configure-to-order)	development					
Reliability testing	BTO (build-to-order)	Electronic Data Exchange					
 Component qualification 	Real time production	• Upgrades					
Electrical and	data collection	Warranty repair					
Mechanical design	Material /process	All levels of repair support					
• Functional test development	laboratory analysis	and management					
Packaging design	Failure analysis and closed						
Embedded software design	loop corrective action						
• Component certification/							
approval meeting							
environmental regulations							
(e.g. RoHS)							

2.8 Long-Term and Short-Term Business Development Plans

2.8.1 Short-Term Development Plan

Wistron aims to strengthen customer satisfaction, provide the best quality, strengthen current customer relations, and optimize existing customers and product portfolios. The short-term business development indicators will include improving operational efficiency, increasing capacity utilization, and boosting profitability.

2.8.2 Long-Term Development Plan

In the long run, the Company will continue to increase the profitable products and services (including hand held mobile products, servers, network storage, internet telephony, industrial computers, rugged mobile computers, and after-sales service, etc.) and accelerate achieving breakeven and turn to profitability in our newly invested businesses.

The strategic plans are as follows:

(1) Marketing Strategy

- A. Continue to improve core competency in professional designs and technological services.
- B. Maintain high-quality and high-performance products.
- C. Continue to expand the service network across the globe for providing a comprehensive range of after-sales services.

(2) Manufacturing Policy

- A. Optimize the global manufacturing system by integrating lean production and an automated manufacturing system to enhance efficiency and lower costs.
- B. Continue to promote Six Sigma projects in combination with performance goals to comprehensively enhance quality and efficiency.

(3) Product Development Goals

- A. Cultivate excellent R&D experts and improve their R&D capabilities.
- B. Use existing computer research and manufacturing capabilities to strengthen the research and development of servers, network storage devices, advanced network management systems, and industrial computers. We also will integrate the concept of Internet of Things service into Smart Home trends that provide connectivity, entertainment, home security, voice control, and healthcare functions, thereby introducing new value-added products and technological services featuring innovative functions.
- C. Commit to energy conservation by adopting eco-friendly materials and technologies that comply with green product and related environmental laws.

(4) Scale of Operation and Financial Support

- A. Actively integrate and develop production capacity overseas to fulfill business requirements.
- B. Strengthen balance sheet management, control the number of cash turnover days to within a reasonable range, and sustain a healthy financial structure.

2.9 Market, Production and Sales

2.9.1 Market Analysis

1. Market Share

Taiwan is a major supplier of information technology products as exemplified by these iconic products. According to the MIC (February 2018) and market statistics, Taiwan produced 132,398 K notebook computers, 48,789 K desktop computers and 8,680 K servers in 2017, of which about 15%, 27%, and 23% were produced by our company respectively. These numbers demonstrate our company's considerable competitiveness in the market.

2. Future Market Supply and Demand and Future Growth

(1) Future Market Possible Supply and Demand Scenarios

A. Supply Perspective:

The personal computer (PC) market has reached maturity and Taiwan's manufacturers must rely on exceptional cost control, assembly technology and production flexibility while devising strategies, engaging in research and development, and building on marketing and management experience to acquire OEM orders. With complete upstream and downstream integration, Taiwanese manufacturers can supply competitive products and retain an edge in research and development, offering ODM services that differentiate them from foreign OEM manufacturers.

B. Demand Perspective:

With the spread of smart devices and mobile networks, the global information technology market has shifted the demand for PCs to smart devices, causing a decline in market demand for PCs.

Global PC Sales Growth Trend

Unit: 1 = 1000 units

Year	2016	2017	2018(e)	2019(f)	2020(f)
Number of NBs	149,144	155,601	160,608	157,075	148,907
Growth Rate	-5.4%	4.3%	3.2%	-2.2%	-5.2%
Number of DTs	116,956	108,499	102,692	96,625	92,293
Growth Rate	-5.1%	-7.2%	-5.4%	-5.9%	-4.5%
Number of PCs (NB + DT)	266,100	264,100	263,300	253,700	241,200
Growth Rate	-5.3%	-0.8%	-0.3%	-3.6%	-4.9%

Source: DIGITIMES (March 2018) Compound growth rate is around -2.43% from 2016 to 2020.

(2) Future Growth

We continue to expand the ratio of higher profit products (such as servers) and expedite growth and profit in technology service businesses.

Global Server Sales Growth Trend

Unit: 1 = 1000 units

Year	2016	2017	2018(e)	2019(f)	2020(f)	
Number of Servers	11,104	11,458	11,859	12,382	12,765	
Growth Rate	0.1%	3.2%	3.5%	4.4%	3.1%	

Source: Gartner (December 2017) Compound growth rate is around 3.55% from 2016 to 2020.

3. Competitive Niches

(1) Fully Staffed and Experienced R&D Team

Each business unit in our company has their own R&D department responsible for the research and development of their products. As of January 2018, our company has a R&D team of over 4,100 people, over 99% of which have a college degree or higher and main team leaders have on average over 25 years of experience in developing products in their field. These conditions are a testament to our R&D's strength in terms of the quality of people and their experience.

(2) Fully Integrated Manufacturing Base

We intend to continue our OEM business while actively venturing into new realms. The company's manufacturing bases are located in Taiwan, China, Mexico and the Czech Republic.

One of our company's key advantages now is receiving purchase orders in Taiwan and through lean manufacturing by decreasing production waste, improving production efficiency, and reducing manufacturing cost to maximize profits.

(3) Solid Clients and a Diversified Portfolio of Products

Our company's business is based mainly on providing professional OEM services supporting clients with world renowned brands, each comprising an equal share of our sales. Our products are also diversified and the company is not affected by shifts in the industry of a single product. The company is also not affected by instability of supply and demand due to clients' shift in product strategy.

(4) Focus on Product Quality

Building on years of experience in design and manufacturing, very comprehensive testing and quality control of our products have earned our clients' trust.

(5) Solid Relationships with Suppliers

As to sources of key technology or key component suppliers, the company maintains long-term partnerships and total cost considerations with our supply chain to provide comprehensive services and solutions with regards to cost, quality, and delivery.

(6) Global Logistics Management Capability

The company has established manufacturing bases and service centers in Europe, the Americas and Asia. Over time, we have established effective global logistics management capabilities in order to fulfill a wide range of demands from clients in different parts of the world. This crucial capability matches future trends in the industry and has become one of the key advantages of our company.

(7) Professional Management Team

Our management teams are all senior professionals with over 20 years of related experience in the industry. The team enjoys a history of collaboration and shares common ideas and a common goal, paving the way for effective leadership to facilitate growth.

4. Advantages and Unfavorable Factors to Long-Term Development and Response Measures

(1) Advantages

A. Taiwan enjoys an extensive information technology industry with strong overall marketing capabilities.

The domestic IT industry has undergone several phases of transition and matured in the process. The Taiwanese IT industry occupies a solid place in the global marketplace. The industry is proportionally dispersed and well-integrated among individual industries allowing mutual support.

This has led to an increase in the international marketing capability of Taiwan's IT industry, enabling this industry to become a global procurement center for personal computer related products.

B. Taiwan's component industry has matured and enjoys a stable supply of key components.

In recent years, Taiwanese manufacturers have gained dominance in key components such as chip sets, printed circuit boards, and touch modules for motherboards, notebook computers, tablet computers, smart phones and LCD displays. The industry's comprehensive development has helped advance the domestic IT industry and boost Taiwan's IT capabilities.

C. Potent R&D and Technical Innovation Capabilities.

Our company has one of the finest R&D teams in the industry and continues to strive for product development and technical innovation. We cooperate with CPU manufacturers to jointly develop new products, which allow us to market new technologies ahead of competitors. We also maintain R&D departments in all IT product business units,

enabling the company to stay ahead of competition in a highly competitive market with short product cycles.

D. Solid After-Sales Service Networks

The company has established service centers on three continents in Taiwan, China, the Czech Republic, Japan, Hong Kong, Singapore, India, the Philippines, Turkey, Mexico, Columbia, Brazil and Chile, offering real-time and efficient after-sales service.

(2) Unfavorable Factors

A. Intense Competition Lowers Profit

The development of the IT industry has lowered entry barriers and the influx of producers has led to intense competition. Meanwhile, the maturity of computer products, advancement of manufacture technology, over-capacity, and less product feature differentiation have led to profit margins decline.

B. Exchange Rates' Effect on Profits

The company's products are mostly for export and profits are susceptible to changes in exchange rates.

C. Mounting Labor and Land Costs Raise Production Costs

Automated assembly can accommodate the production of most of the company's products but certain components still rely on manual labor. Mounting labor cost has raised operation expenditures in China and the industry's production costs which are detrimental to competition in the global market.

(3) The Company's Response

- A. Confront the competition by active product innovation and developing high value-added products.
- B. Maximize production efficiency by strengthening cost and inventory control and increasing automation.
- C. Hedge against exchange rate risks by balancing assets and debt in foreign currency to lower net foreign currency position.
- D. Finance personnel must be wary of fluctuations in exchange rates and the company's demand for funds by taking appropriate hedging measures.
- E. Raise the quality of the products and lower dependence on manual labor by actively investing in automated production equipment.
- F. Increase capacity utilization by streamlining design and production instead of merely increasing capacity.

2.9.2 Core Applications of Major Products and Manufacturing Processes:

1. Core Applications of Major Products

Data storage, logic computation, analyses, network communication, data management, computer-assisted design, manufacturing, publication, education, entertainment, electronic purchases, word processing, financial services and finance management.

2. Manufacturing Processes

(1) Printed Circuit Board Assembly (PCBA)

Incoming material inspection \rightarrow materials preparation \rightarrow solder paste printing \rightarrow high speed placement for small surface mount device \rightarrow Flexible placement for fine pitch/large surface mount device \rightarrow nitrogen reflow heating and soldering \rightarrow automatic optical inspection \rightarrow in-circuit tester inspection \rightarrow on-line inspection \rightarrow component insertion \rightarrow wave soldering in heated tin stove \rightarrow mending operations \rightarrow PCB ICT and ATE tests \rightarrow functional inspection \rightarrow visual inspection \rightarrow packaging \rightarrow inventory \rightarrow shipping

(2) Final Assembly (FA):

Incoming material inspection \rightarrow materials preparation \rightarrow assembly \rightarrow system function pretest \rightarrow run-in test \rightarrow operation system download \rightarrow system final function test \rightarrow visual inspection \rightarrow packaging \rightarrow inventory \rightarrow shipping

2.9.3 Status of Supply of Chief Materials:

Main Materials	Domestic and Foreign Sources	State of Supply (2018)
СРИ	United States	CPU supply is relatively stable with a little bit lead time extension, but need to pay more attention on silicon wafer supply due to globally tight. Long-term demand projection is highly necessary.
Hard Drives	United States, Japan	 (1)NB&PC: well supplied year-round. (Overall low demand for PC, and growing replacement with Solid State Disk(SSD) for NB) (2)Enterprise: supply tight for high capacity as 4TB~10TB due to strong demand from data center customers, and supply will be more constraint due to old/new HDD models change plan from 2018 Q3.
DRAM	United States, Japan, Korea	DRAM demand growth rate is higher than supply growth rate, and major demand is from server and data center. DRAM size increased of Mobile devices continuously. Tight supply in 2018.
Power Supply	Taiwan, China	Due to 2nd tier suppliers (for MLCC/ CAP/ MOSFET) extend lead time, that impacts lead time of Power Supply as well (from 8 to 12 weeks) and tight supply.
РСВ	Taiwan, China, Austria	For copper foil makers raised up cost (over 65% up since Nov. 2016 till now) and limited supply qty; cost increases on petrochemical raw-material(glass fiber/epoxy), and plus strictly environment controlling in China(air/waste water), PCB suppliers are facing cost up pressure as well as lead time extend. This condition would last till 2018. 1st tier PCB suppliers will put more focus on Automotive/HDI, high layer count and high frequency PCB to sustain their margin.
LCD	Taiwan, China, Japan, Korea	Oversupply in 2018 due to demands keep flat or even slow moving.

2.10 Board of Directors, Supervisors and Key Managers background information (including share holding)

2.11 Policy, criteria, packages, and rules of procedure relating to the compensation for directors, president and vice presidents, as well as relevance between the foregoing and evaluation of each party's performance respectively:

- (1) If the Company has profit as a result of the yearly accounting closing (profit means the profit before tax, excluding the amounts of employees' and directors' compensation), such profit will be distributed in accordance with the following, once the Company's accumulated losses shall have been covered.
 - A. No less than five percent (5%) of profit as employees' compensation. The Company may distributed in the form of shares or in cash, and the qualification requirements of employees, including the employees of subsidiaries of the company meeting certain specific requirements, entitled to receive compensation shall be determined by the Board of Directors.
 - B. No more than one percent (1%) of profit as the compensation in cash to the Directors.
- (2) The total compensation for the President and vice president(s) comprises (i) primarily variable items, including performance bonus, dividend (distribution in cash or stock), and stock option; and (ii) secondary fixed items, including base salary, annual bonus, and benefits. The fixed items remain competitive with the average level of the industry, while variable items are distributed taking into account both company operating result and personal performance as a whole. The better result of the Company operating and personal performance, the higher ratio between variable items and fixed items. Evaluation and review of personal performance of the President and vice president(s) are based upon achievement of operating goal, profit ratio, growth rate, operating earnings and efficiency, as well as potential for future development. Criteria for evaluation and review are set forth in the beginning of the year, taking into account internal and external factors of business environment of that particular year. All weighting factors are subject to the Chairman and CEO's final approval then implemented accordingly. Thereafter, the Chairman and CEO will determine compensation to be paid to the President and vice president(s) based upon his evaluation and review of their personal performance respectively.

2.12 Labor Relations

2.12.1 Detailed descriptions of employee benefits, training and development, retirement plan and each of the implementations, as well as the labor management agreement and employee rights preservation policies are listed in the following:

(1) Employee benefits:

Wistron always cares for and values employees by implementing a series of programs in accordance with the law to help employees develop a higher quality of working life, which, in turn, enhances productivity. These programs include allocating welfare funds, establishing an employee welfare committee, and electing employee committee members to plan for annual benefit activities. In addition, Wistron also provides employees free commuting transportation, Employee Assistance Programs (EAPs), family party, fitness center, group insurance plans.

(2) Training and development:

In year 2017, Wistron took around 6.67 million NT dollars for training budget and offered 447 training courses which accounted for 1,159 training hours and 50,712 participants in total in Taiwan. The major training items are "New Employee Training", "CSR", "Management Training", "English" and "Culture Workshop". Wistron believes the constant enhancement of workforce quality is one of the key driving forces for the Company's long-term development and sustaining in the market.

To achieve this goal, Wistron constantly invests in the employees' training activities to enhance employees' professional skills and knowledge, management skills sets, corporate culture and other related skills. Aligning training with business objectives, since year 2008, General Managers of each Business Unit have committed to participate in the Management Assessment and Development Program, and as part of the program, to develop and implement their own Individual Development Plan (IDP). The program aims to enhance the managers' managing and leadership skills as well as their operational efficiency. The target audience of the program is also extended to overseas site General Managers starting from year 2009.

Through the efforts over the two years, high-level managers have developed more proficient level of skills in developing organizational talents, and have committed to diffuse the initiative further down the organizational hierarchy.

Meanwhile, Wistron has extended the application of e-Learning to external counterparts, such as suppliers, to deliver its quality standard and RoHS compliance requests. E-Learning not only helps Wistron employees accelerate the understanding of Wistron internal quality policies, processes and acquire the knowledge of necessary tools, but also helps external suppliers understand and meet Wistron's quality policies to deliver zero-defect products and services to Wistron's customers.

To establish a system of talent development and e-Learning training, Wistron develops a Knowledge Management System (KM) to facilitate the knowledge sharing within/among departments, including overseas offices.

From 2003 to 2006, each year Wistron has been entitled awards for its excellent achievement in E-Learning implementation. Wistron was awarded the "Enterprise E-Learning for Performance Excellence" Award three years in a row, and one "Special Award" for the fourth year by the Ministry of Economic Affairs of Republic of China.In 2004 Wistron was selected by the government to represent enterprises in Taiwan to share its e-Learning best-practices in the prestigious American Society of Training and Development (ASTD) 60th anniversary international convention with the human resource experts, researchers and training professionals from across the world. In year 2005 Wistron was honored the "E-Learning Flagship Role Model Enterprise" in Taiwan.In year 2008, Wistron was awarded "National HRD InnoPrize" by Council of Labor Affairs of the Executive Yuan.

(3) Retirement plan:

To develop a stable retirement plan for the employees and therefore enhance employees' engagement to the Company, Wistron establishes rules for the employee retirement plan in accordance with the Labor Standard Law and Labor Pension Act. Wistron contributes six percent of applicable employee's monthly wage to the labor pension per month according to Labor Pension Act. Besides, Wistron establishes Supervisory Committee of Workers' Retirement Fund to allocate employee retirement reserve fund each month in accordance with "Rules for the Allocation and Management of the Workers' Retirement Fund" and deposits the fund into the dedicated account in the name of Supervisory Committee in the legally established banks.

(4) Labor Relations:

Wistron always values communication with the employees, and endeavors to reach the labor management harmony. Wistron has never been subjected to any loss due to labor management dispute, and expects no such kind of loss in the future.

2.12.2 At the time of printing this publication, loss incurred by labor dispute and the amounts of anticipated losses and countermeasures: None

	Total	6,324	6,740
Average Age		36.18	36.61
Average Seniority		6.30	6.46

3.5 Environmental Protection Measures

The Company's current compliance with RoHS recast (2011/65/EU) and other environmental protection requirements may be explained through the following aspects:

(1) Product Research and Development:

All products developed by Wistron focus on 3 subjects- hazardous free, energy saving, and resources reduction as well as have fully conformed to the European Union's RoHS (2011/65/EU) and WEEE requirements. Furthermore, we are actively paying close attention to other environmental protection trends, such as Green House Gas, Product Carbon Footprint, Halogenfree, REACH, PAHs, PFOS, Energy Start, ErP and the US EPEAT (Electronic Product Environmental Assessment Tool). Implement the Eco-design from product development; we strive to contribute for the betterment of the global environment.

(2) Production/Manufacturing:

All Wistron manufacturing bases of operation have the capacity to produce environmental friendly products; the Material Management System, Manufacturing Process Control, and Lead-free production equipment are all established. Our Taiwan, Philippines, China and Czech operation bases have been certified ISO 14001 and IECQ QC08000 (Hazardous Substance Process Management). We ensure product compliance with relevant requirements through a comprehensive environmental quality management system. We also inventory greenhouse gas emission from production and establish reduction goals as well as verified by 3rd party for ISO 14064. Moreover, the electricity consumption is the major contribution of greenhouse gases emission. To reduce the power consumption can reduce the greenhouse gases emission; therefore, Wistron improved the energy efficiency for major equipment and use the energy saving equipment to reduce the greenhouse gases emission and energy usage cost. We are also planning to use renewable energy in production and have established solar power generation in our Zhongshan and Kunshan site in 2017. In order to analysis the efficiency of energy utilization and find out the opportunity of energy saving as well as providing framework of sustaining performance improvement of energy efficiency, Wistron started to implement the ISO 50001 energy management system in Taiwan and Zhongshan Plant since 2014. Our long-term goal is to reduce 10% of electricity usage per revenue by 2020, compared to 2015.

(3) Quality Control:

Wistron has established hazardous substance analysis laboratories in Taiwan, China, Czech, and Mexico to complete the overall arrangement of a global hazardous substance testing network. The testing capability is not only to include the RoHS six restricted substances but also extend to the other substances e.g. Bromine, Chlorine, Phthalates, Arsine and Antimony, etc. We implemented the regular sampling test mechanism to ensure that components and products don't contain the hazardous substances.

(4) Supply Chain Management:

Wistron conducts regular audit and checks on suppliers to ensure that materials and components comply with environmental protection requirements; we change unqualified suppliers as well as hold annual vendor conference to introduce green product trend and Wistron's environmental requirements to reinforce suppliers' awareness on environmental protection. Our philosophy is to implement source management programs to minimize risks. To improve global warming is important issue to environment, Wistron has required suppliers to provide the data of greenhouse gases emission and encourage supplier to reduce the emission since every year. Furthermore, Wistron start to inventory the scope 3 of greenhouse gases emission for Taiwan office and factory since 2015. Collect the emission which is generated by employee travelling and transportation for product and materials. There are more manufacturing sites located in China were included in the inventory scope in 2016.

(5) Personnel:

Wistron has established a dedicated material analysis laboratories and green component engineering department, in charge of hazardous substance analysis and component qualification through chemical analysis. Furthermore, continuously monitor green product trend as well as provide proposal and solution. In addition, the reinforcement of employees' environmental protection knowledge and skills through actual training courses and e-learning ensures the employees in the Company shall perform relevant environmental protection tasks well.

(6) Information System:

Wistron has established a Green Product Management GPM system; suppliers may directly upload related environmental protection information into Wistron's GPM database through the internet so as to simplify procedures, minimize human error, and enhance task efficiency. The flexibility of the interface allows it to cope with future environmental protection requirements. Moreover, GPM could generate customized format report to declare the green product information to customers. We have implemented the GPM2.0 to enhance the system function and efficiency in 2014. In order to efficiently address the increased requirement of controlled hazardous substances, e.g. REACH-SVHC, Wistron has developed and implemented the Full Material Disclosure (FMD) information system to know well the composition of materials used in the products. Therefore, we can quickly verify whether the hazardous substances be used in product as well as reduce the operation cost due to the repeated investigation. In addition, Wistron has developed a product Carbon Footprint Management (CFM) system to inventory the total emission of carbon dioxide for whole product lifecycle as well as passed the verification by 3rd party.

3.6 Corporate sustainability and social responsibility

3.6.1 Awareness and commitment

Wistron Corporation is a world leading Technology Service Provider (TSP) in the information and communication industry. As such, the Company is fully aware of its capacity and responsibility as a global corporate citizen and thereby commits to providing top-quality product design and services alongside the wielding of positive influence with a view to enhancing corporate sustainability and social responsibility.

In 2008, Wistron started its era of corporate sustainability and social responsibility through the establishment of designated bodies. In practice, we fine-tuned our execution of corporate sustainability and social responsibility with reference to local cultures in different business locations. From 2010 onwards, Wistron started to communicate with stakeholders in different social sectors through different channels.

3.6.2 Corporate sustainability and social responsibility management

We recognize that environmental and social topics are too big for any single organization to address alone, therefore Wistron set up a Corporate Sustainability and Social Responsibility Implementing Committee ("CSR Implementing Committee"). The CSR Implementing Committee is the highest internal unit in managing Wistron's CSR affairs. Serving as Chairperson of the committee, the President & CEO is responsible for setting policies, objectives and directions, as well as conducting management review.

In order to ensure that the policies and resolutions of the CSR Implementing Committee are implemented, Wistron has established five corresponding management systems in response to the five key issues of quality, green products, environmental protection, occupational safety and health, and social responsibility. Through these management systems, Wistron strives to align itself with international standards, acquire relevant management system certifications, and integrate sustainability and social responsibility policies and objectives into daily business operations.

3.6.3 Corporate sustainability and social responsibility progress

- 1. Since 2009, Wistron has responded to the Carbon Disclosure Project (CDP) questionnaire annually, in voluntary disclosure of our climate risks, as well as looking for opportunities for future development, emissions information and management strategies.
- 2. Since 2010, Wistron's corporate greenhouse gas (GHG) goal has been set as "reduce unit revenue GHG emissions by 1% year-over-year."
- 3. Since 2010, Wistron released Corporate Sustainability Report annually. The content of this report has been verified by an independent third party verifier, based on AA1000 standards, in compliance with the requirements of the Global Reporting Initiative (GRI).
- 4. For sustainability and innovation, Wistron has established a "Green Recycling Business Unit" centered on the idea that "no pollution should be generated the second time around." By using recycling technologies for many types of resources, Wistron aims to recycle electronic waste

and turn them into high-quality raw materials so that these recycled resources can be used again. Such moves help to protect the environment and reduce resource waste, and also help to reduce greenhouse gas emissions.

5. As a member of the Responsible Business Alliance (RBA), Wistron fully supports the vision and goals of the RBA, as well as its code of conduct on Environmental, Ethics, Labor and Health & Safety. (Note: The Electronic Industry Citizenship Coalition (EICC) is now the Responsible Business Alliance (RBA))

For more information, please refer to our CSR report at http://www.wistron.com

3.6.4 The Wistron Foundation

Wistron Foundation was established in 2010. Mr. Simon Lin holds the position of Chairman. Wistron Foundation strives to protect the environment and maintain ecological balance, advocate the values of humanities, and fulfill Wistron's corporate social responsibility.

We aim to expand Wistron's business philosophy of "Altruism" from the local community on to the entire society. For a long time, Wistron has been involved in the activities of caring for humanity and the environment through sponsorships in a variety of public welfare projects, including donations to disadvantaged children and remote schools, and cooperating with NGO/NPO partners.

In pursuit of harmony between humans and nature, Wistron Foundation has continually engaged in and sponsored projects in supporting teaching humanism, concern for humanity, environmental education and concern for the environment. In 2017, the number of our sponsored projects reached seventeen. Aside from sponsorships, we also initiate and promote different volunteering programs and encourage the participation of Wistron's employees.

The four principles of Wistron Foundation — "protecting the planet," "cherishing life," "improving quality," and "creating value"—follow our corporate values. We are committed to continue working on these long-term programs that lead towards sustainable development.

4.1.6 Dividend Policy

- (1) If the Company has net profit as a result of the yearly accounting closing, the Company shall first offset its losses in precious years and set aside a legal capital reserve at ten percent(10%) of the net profit, until the accumulated legal capital reserve has equaled the total capital of the Company; then set aside special capital reserve in accordance with relevant laws or regulations or as requested by the authorities in charge, then appropriate not less than ten percent (10%) of the remaining balance plus undistributed earnings in begin of period are available for distribution as dividends to shareholders. The board of directors may propose the distribution for approval in the shareholders' meeting.
- (2) In consideration that the Company is in a capital and technology-intensive industry and in consideration of the Company's expansion and for its continual and steady growth, a long-term investment plan needs to be adopted, therefore, the Company adopts the residual dividend policy as its dividend policy. Dividends paid by cash shall not be less than ten percent (10%) of the total dividends.

4.1.7 Dividend Distribution Plan that is Proposed to be Resolved in This General Shareholders' Meeting

The Board adopted a proposal for 2017 profit distribution at its quarterly meeting on March 13, 2018. The proposed profit distribution will take effect upon the approval of shareholders at the Annual Shareholders' Meeting on June 14, 2018.

Proposal for Distribution of 2017 Profits

Unit: NT\$

Undistributed Earnings at the Beginning of the year		9,950,335,886
Plus(Minus):		
Remeasurements of the defined benefit liability	(57,306,513)	
Loss on treasury stock transactions	(41,923,866)	
Changes in ownership interests in subsidiaries	(2,903,943)	
Share-based payment transactions	1,686,198	
Net Profit	3,885,515,885	
Minus:		
Legal Reserve	(388,551,589)	
Special Reserve	(4,010,254,593)	
Distributable Earnings		9,336,597,465
Distribution Items:		
Stock Dividends to Common Shareholders	(802,049,830)	
Cash Dividends to Common Shareholders	(3,208,199,283)	(4,010,249,113)
Undistributed Earnings at the end of the year		5,326,348,352

4.1.8 Compensation to Employees and to Directors,

- (1) If the Company has profit as a result of the yearly accounting closing (profit means the profit before tax, excluding the amounts of employees' and directors' compensation), such profit will be distributed in accordance with the following, once the Company's accumulated losses shall have been covered.
 - A. No less than five percent (5%) of profit as employees' compensation. The Company may distributed in the form of shares or in cash, and the qualification requirements of employees, including the employees of subsidiaries of the company meeting certain specific requirements, entitled to receive compensation shall be determined by the Board of Directors.
 - B. No more than one percent (1%) of profit as the compensation in cash to the Directors.
- (2) The Board of Directors resolved the employees' and directors' compensation of 2017 as follows:
 - A. NT\$711,307,900 as stock employees' compensation, NT\$46,946,330 as compensation to directors.
 - B. The employees' compensation of NT\$711,307,900 in 2017 will be distributed by shares. The numbers of issued shares with NT\$10 per share were 30,140,165 shares, which were calculated based on the closing price, NT\$23.60, prior to the board resolution date on April 27, 2018. Employees' compensation of less than one share, equivalent to NT\$6, shall be distributed in cash.

(3) The Bonuses to Employees and Remunerations to Directors in 2016:

		2016						
	Board Resolution	Ac	te)					
	Amount(NT\$)	Amount(NT\$)	Underlying Number of Shares	Dilution(%)				
Employee Profit Sharing in Cash	-	-	-	-				
Employee Profit Sharing in Stock	615,439,600	615,439,600	23,490,061	0.91				
Remunerations to Directors	40,619,020	40,619,020	-	-				
Total	656,058,620	656,058,620	-	-				

Note: Each of the above three items, being approved by the Board, has been expensed at the same amount under the Company's 2016 income statements.

 - (3) Cash investment ratio=(Cash flow from operating activities—cash dividend) / (Gross property, plant and equipment+long-term investment+ other non-current assets+working capital)
- 6. Leverage
 - (1) Operating leverage = (Nest revenue variable cost of goods sold and operating expense) / operating income
 - (2) Financial leverage=Operating income/(Operating income-interest expenses)
- 7. The analysis of negative cash flow from operating activities is meaningless.

5.3 Audit Committee's Review Report

The Board of Directors has prepared the Company's 2017 Business Report, Financial Statements, and proposal for allocation of profits. The CPA firm of KPMG was retained to audit Wistron's Financial Statements and has issued an audit report relating to the Financial Statements. The Business Report, Financial Statements, and profit allocation proposal have been reviewed and determined to be correct and accurate by the Audit Committee of Wistron Corporation. According to Article 14-4 of the Securities and Exchange Act and Article 219 of the Company Act, I hereby submit this report.

Wistron Corporation

Convener of the Audit Committee: Michael 75ac

Mar 13, 2018

5.3.1 Audit Committee

The Audit Committee is composed of all of the five Independent Directors, with one financial expert. Before the Board meetings, the Audit Committee holds meetings regularly at least once each quarter to examine the Company's internal control systems, internal audit executions, as well as material financial activities; also to communicate with CPAs for an effective supervision on the company's operations and risk controls. A total of eight (A) Audit Committee meetings were held in 2017. The Independent Director's participation status is as follows:

Title	Name	Attendance in Person (B)	By Proxy	Attendance rate in Person (%) (B/A)	Remarks
Chair	Michael Tsai	7	1	88	-
Member	John Hsuan	5	3	63	-
Member	James K.F. Wu	6	2	75	Financial Expert
Member	Duh-Kung Tsai	6	2	75	-
Member	Victor C.J. Cheng	7	1	88	-

5.3.2 Board meeting attendance:

The Board meetings held ten times in 2017.

Title	Name	Attendance	Proxy	Attendance%	Note
Chairman	Simon Lin	8	0	100	-
Director	Stan Shih	6	2	75	-
Director	Haydn Hsieh	8	0	100	-
Director	Robert Huang	8	0	100	-
Independent Director	John Hsuan	5	3	63	-
Independent Director	Michael Tsai	7	1	88	-
Independent Director	James K.F. Wu	6	2	75	-
Independent Director	Duh-Kung Tsai	6	2	75	-
Independent Director	Victor C.J. Cheng	7	1	88	-

5.3.3 Compensation Committee composition, responsibilities and operation:

On July 20, 2015, Wistron's Board of Directors made a resolution to set up the third session of Compensation Committee. The Committee is composed of three members: Independent Director, Mr. John Hsuan; Independent Director, Mr. Michael Tsai; and Independent Director, Mr. Duh-Kung Tsai. Among the Committee members, Mr. John Hsuan was unanimously elected by the entire Committee members to serve as the convener and meeting chair.

Wistron's Compensation Committee is given the authority to establish and review compensation policies for the Company's directors and senior management. The policies are linked with the Company's performance and goals, designed to recruit and retain high quality personnel and enhance competitiveness.

The Committee conducted three meetings in 2017 and the Committee members' attendance status is as below:

Title	Name	Attendance in Person	Proxy Attendance	Rate of Attendance in Person (%)	Note
Chair	John Hsuan	3	0	100	-
Member	Michael Tsai	3	0	100	-
Member	Duh-Kung Tsai	1	2	33	-

6. Financial Analysis

6.1 2017 vs. 2016 financial analysis

Unit: NT\$ thousands

Year			Differen	
Item	2017.12.31	2016.12.31		
			Amount	
Current assets	270,205,662	225,656,731	44,548,931	19.74
Net property, plant and equipment	36,653,350	36,448,176	205,174	0.56
Intangible assets	1,057,624	1,247,465	(189,841)	(15.22)
Other assets	18,736,746	19,403,186	(666,440)	(3.43)
Total assets	326,653,382	282,755,558	43,897,824	15.53
Current liabilities	254,191,674	197,453,207	56,738,467	28.74
Non-current liabilities	6,040,646	17,333,902	(11,293,256)	(65.15)
Total liabilities	260,232,320	214,787,109	45,445,211	21.16
Common stock	27,486,880	26,503,165	983,715	3.71
Capital surplus	22,076,225	21,353,585	722,640	3.38
Retained earnings	21,326,529	21,344,172	(17,643)	(0.08)
Other equity	(4,010,255)	636,406	(4,646,661)	(730.14)
Treasury stock	(1,753,005)	(2,592,278)	839,273	(32.38)
Equity attributable to owners of	65,126,374	67,245,050	(2.119.676)	(3.15)
the company	03,120,374	07,243,030	(2,118,676)	(3.13)
Non-controlling interests	1,294,688	723,399	571,289	78.97
Total equity	66,421,062	67,968,449	(1,547,387)	(2.28)

6.1.1. Analysis for asset, liability and stockholders' equity balance change more than 20%, and the changed amount are more than NT\$10,000K:

- (1) The increase in current liabilities was mainly due to increase in short-term loans.
- (2) The decrease in non-current liabilities was mainly due to decrease in long-term loans.
- (3) The decrease in other equity was mainly due to decrease in exchange differences on translation of foreign financial statements.
- (4) The decrease in treasury stock was mainly due to transferring treasury stock to employees.
- (5) The increase in non-controlling interests was mainly due to the increase of net profit from subsidiaries.

6.2 2017 vs. 2016 operating result analysis

Unit: NT\$ thousands

				111 # tilousalius
Year			Increasing	Change
	2017	2016	(decreasing)	percentage
Item			amount	(%)
Net revenues	836,081,023	659,908,231	176,172,792	26.70
Cost of sales	804,441,620	628,263,714	176,177,906	28.04
Gross profit	31,639,403	31,644,517	(5,114)	(0.02)
Operating expenses	25,725,592	25,632,447	93,145	0.36
Operating income	5,913,811	6,012,070	(98,259)	(1.63)
Non-operating income	244.600	(1.254.070)	1 400 570	(110.40)
and expenses	244,600	(1,254,970)	1,499,570	(119.49)
Profit before tax	6,158,411	4,757,100	1,401,311	29.46
Income tax expenses	1,796,920	1,764,096	32,824	1.86

Other comprehensive	(4.021.072)	(2.420.00()	(2 200 007)	00.22
income, net of tax	(4,821,073)	(2,430,986)	(2,390,087)	98.32
Total comprehensive income	(459,582)	562,018	(1,021,600)	(181.77)
Net profit attributable to	2 005 516	2.061.101	024 415	21.22
owners of the Company	3,885,516	2,961,101	924,415	31.22
Total comprehensive				
income attributable to	(932,172)	531,776	(1,463,948)	(275.29)
owners of the Company				

6.2.1 Analysis for change item amount change more than 20%:

- (1) Increase in net revenues and cost of sales: The increase was mainly due to the increase of net revenues.
- (2) Increase in non-operating income and expenses: The increase was mainly due to the increase of foreign exchange gains ,net .
- (3) Increase in net profit and net profit attributable to owners of the Company: The increase was mainly due to the increase of non-operating income and expenses.
- (4) Decrease in other comprehensive income, net of tax: The decrease was mainly due to the decrease of exchange differences on translation of financial statements.
- (5) Decrease in total comprehensive income and total comprehensive income attributable to owners of the Company: The decrease was mainly due to the decrease of other comprehensive income, net of tax.

6.3 Cash flow analysis:

- (1) Operating Activities: Cash flow-out of NT\$ 13,139M was mainly caused by the increase in inventory.
- (2) Investing Activities: Cash flow-out of NT\$ 10,183M was mainly caused by the increase in fix asset acquisition and other assets-noncurrent.
- (3) Financing Activities: Cash flow-in of NT\$ 33,420M was mainly caused by the increase in short term borrowings.

6.3.1 Cash flow forecast in 2018

Unit: NT\$thousands

Cash	Cash flow from	Cash flow-in	Cash ending balance	Plan for ca balance	O
beginning balance	operating activities	(out)	(shortage)	Investment plan	Financing plan
65,986,117	11,777,035	(1,608,550)	64,377,617	-	-

- (1) Operating Activities: Cash flow-in is mainly due to the growth in estimated operating income of 2018
- (2) Investing Activities: Cash flow-out is mainly due to potential expansion of subsidiaries' operation and business scale.

6.4 Major Capital Expenditures and Impact on Financial and Business

6.4.1 Major Capital Expenditure and Sources of Funding

Unit: NT\$ thousands

Plan	Actual or planned	Total amount as	Status of Actual	Use of Capital
rian	source of capital	of Dec 31, 2017	2016	2017
	Cash Flow generated from operation	13,904,807	6,493,097	7,411,710

6.4.2 Expected Future Benefits:

The investment in capital expenditure was for business growth as well as to expand capacity and to enhance productivity.

6.5 Investment Policies:

The investments the company made were for long-term strategic purpose. In 2017, the investment income recognized under equity method was NT\$ 307,854 thousands. The company will continue making long-term strategic investments through prudent assessment in order to reinforce its competitiveness.

6.6 Risk Management

6.6.1 How does interest rate, exchange rate, or inflation influence Company's profit and loss, and how to manage such risks?

Items	2016 (in thousand NT dollars)	2017 (in thousand NT dollars)
Interest Income	933,695	1,078,725
Interest Expense	1,981,651	2,756,041
Exchange loss/gain	287,721	2,746,378

By the end of 2017, the cash and short-term investment balance of the Company totaled about NT\$66.5 billion with short term borrowings about NT\$82.6 billion. We reinvested the surplus funds after considerable evaluation of risks involved, while watching closely the change of bank lending rates on a regular basis.

Around 95% of the Company's revenue from sales was quoted in U.S. dollars, and most of the Company's material purchases use U.S. dollars as well. Therefore, the majority of Company's foreign currency operating exposure can be mutually offset. In addition, the Company has used regular hedge activities to manage its foreign exchange risk, under proper risk management guidelines. Due to the fluctuation of the foreign exchange rate and the swaps, the Company experienced a foreign exchange gain of NT\$2,746,378 thousands last year.

There was no major inflation around the world during the past year and the Company has not experienced much in this regard.

The action plans to cope with impacts from interest rates, exchange rates and inflation are:

- (1) Further mutually offset foreign assets and liabilities to avert risk.
- (2) Make plans and arrangements in advance for funds yields and borrowing costs, in light of the company's business anticipation and funds requirements.
- (3) Use auxiliary tools, such as derivative financial products, to avoid risks under proper risk guidelines.

6.6.2 What is the Company's policy to make high risk or leveraged investment, make a loan, make a guarantee or buy derivatives? And what are the reasons of gain or loss and what are the future plans?

The Company has not performed any high-risk or highly leveraged investments for the past year. And the Company has not loaned funds and endorsed or guaranteed for any parties other than the subsidiaries which were restricted by Company's internal policies, and no loss has incurred. The Company performed derivatives transactions under the related regulations of the Company, and the transactions were within our business scope.

Looking ahead, the Company will adhere to its existing principle, and not make high-risk and highly leveraged investments. We will only loan to other parties, endorse and guarantee for other parties under the Company's applicable regulations. The derivatives transactions will be performed strictly in compliance with the Derivatives Transaction Procedures set forth by the Company.

6.6.3 Future R&D Development Plan and Investment:

All R&D plans for 2017 have been implemented and put in use in volume production or have been submitted to the customers for verification after internal testing. We will continue to invest on R&D for 2018 to meet business growth needs. The investment ratio will be almost the same as in 2017.

6.6.4 The Impact of Law and Regulation Changes on the Company's Financial Performance:

We have taken proactive measures to protect our financial performance against law and regulation changes.

6.6.5 Impact of Technological and Industrial Changes on the Company's Financial Performance:

To react to the gross margin drop resulting from fiercer market competition, we will enhance the competitiveness of existing businesses, such as advance product functionality, lower production costs and exert strict control over operation costs. In addition, we will enhance the value and momentum of innovation by developing the new opportunities for other technology service related businesses.

6.6.6 Impact of Corporate Image Change on Our Risk Management and the Action Plan:

The most important factor of the Company's image is its integrity. Integrity is the fundamental principal in both our corporate culture and regulations, and has obtained recognition from the general public. Adhering to the integrity principle is beneficial to our risk management.

6.6.7 Expected gains and possible risks relative to acquisitions, and the solution:

No acquisitions occurred in 2017.

6.6.8 Expected Benefits and Risks Related to Plant Facility Expansions:

Feasibility study and financial analysis will be conducted by a designated task force for all plant facility expansions to know all scenarios and proper countermeasures to prepare.

6.6.9 Supply and Distribution Concentration:

Except 100% owned subsidiaries, no concentration risk pertaining to the suppliers and customers.

6.6.10 How shares transfer made by directors, supervisors or shareholders with 10% or more shareholdings affect Company?

Not applicable.

6.6.11 Impact of Management Change on the Company and Action Plans:

The company has a very healthy shareholder's structure: 41.56% stock shares are held by foreign investors, 9.6% by domestic institutional investors, 2.46% by treasury shares. They possess around 53.62% in the aggregate. In addition, the healthy shareholding structure of the Company lowers the risk of key management changes. We will do our best effort to improve corporate management to reward our shareholders with better performance. This is the key to our company's sustained development.

- 6.6.12 Does the Company or its directors, supervisors, general manager, key managers, shareholders with more than 10% shareholding or subsidiaries have any pending lawsuits or disputes which might significantly affect the shareholders' equity or share prices? If yes, what are the facts, claims, filing date, major parties and status upon publishing of this Report?
- (1) In June of 2016, Alacritech filed an action against the Company in the United States District Court for the Eastern District of Texas. The accused products are servers and network interface devices. The litigation has been stayed pending the decision of the US Patent Trial and Appeal Board on IPR proceedings to review certain Alacritech's patent claims.
- (2) In March of 2017, Hitachi Maxell LTD (Japan) submitted the dispute to arbitration in New York City in accordance with the UNCITRAL Arbitration Rules regarding the Patent License Agreement signed with the Company relating to digital televisions. The case is currently in the discovery process, so the final decision has not been made by the Tribunal. The Company will keep co-working with its US attorneys and defend actively.
- (3) In May 2017, Qualcomm Inc. filed an action in UNITED STATES DISTRICT COURT SOUTHERN DISTRICT OF CALIFORNIA against the Company and three other contracted manufacturers for patent licensing payment dispute. The Company and such three contracted manufacturers filed a countersuit against Qualcomm in July 2017. The final decisions to all the claims have not been made, and the Company will keep working with its US counsels and defend vigorously.
- (4) In October of 2017, Phenix Longhorn filed an action against the Company in the United States District Court for the Eastern District of Texas. The accused products are digital televisions. The final decision has not been made, and the Company will keep working with its US counsels and defend vigorously.

6.6.13 Other Risks: None

7. Enforcement of Corporate Governance

	Enfor	cement	
Items	Yes	No	
1. Does Company follow "Corporate Governance Best Practice Principles for TWSE/GTSM Listed Companies" to establish and disclose its corporate governance practices?	✓		
2. Shareholding Structure & Shareholders' Rights (1) Does Company have Internal Operation Procedures for handling shareholders' suggestions, concerns, disputes and litigation matters. If yes, has these procedures been implemented accordingly?	✓		
(2) Does Company possess a list of major shareholders and beneficial owners of these major shareholders?	✓		
(3) Has the Company built and executed a risk management system and "firewall" between the Company and its affiliates?	✓		
(4) Has the Company established internal rules prohibiting insider trading on undisclosed information?	✓		
3. Composition and Responsibilities of the Board of Directors (1) Has the Company established a diversification policy for the composition of its Board of Directors and has it been implemented accordingly?	✓		
(2) Other than the Compensation Committee and the Audit Committee which are required by law, does the Company plan to set up other Board committees?	✓		
(3) Has the Company established methodology for evaluating the performance of its Board of Directors, on an annual basis?	✓		

Enforcement	Discrepancy between the
Summary Description	corporate governance principles implemented by the Company and the government principles, and the reason for the discrepancy
Wistron has set up "Corporate Governance Best Practice Principles" by Board of Director and made amendment on November 11, 2016, and there is no discrepancy between corporate governance principles.	No discrepancy
 Wistron has designated the Shareholder Service Office to handle the shareholders' proposal and disputes. Wistron holds information on the identities of major shareholders and their ultimate controlling persons. Wistron has established the appropriate risk control mechanisms and firewalls according to internal rules, such as rules of supervision over subsidiaries, rules governing endorsement and guarantee, loaning of funds and the rules governing acquisitions and dispositions of assets etc. Wistron enacted "Regulations on Insider Trading" to prevent any illegal activities in terms of insider trading. 	No discrepancy
 Wistron has set the diversification policy of the board of directors in "Corporate Governance Best Practice Principles". All members of the Board of Directors have professional background (e.g., law, accounting, industry, and finance), professional skills, and industry experience. Wistron may create other functional committees according to the article 12 of Articles of Incorporation. Except for Audit Committee and Compensation Committee, our Company has set up a Corporate Sustainability and social Responsibility Implementing Committee, which the President & CEO is serving as chairperson of the committee, and will report the implementation status and results to the Board. Wistron has established "Rules for Board of Directors Performance Assessments" on November 11, 2016. The Company had completed the performance evaluation of Board of Directors for the period from January 1, 2017 to December 31, 2017, including self-evaluation by individual board members and the internal evaluation of the board. The assessment fee in the questionnaire shall be deemed to be the achievement of the project. If the rate is over 90% (inclusive), it shall be "exceed the standard". If the rate is over 80% (inclusive) or less than 90%; When the rate is less than 80%, it is "still strong". Upon completion of the above procedures, the results of the 2017 Board of Directors' performance evaluation are "exceed the standard". 	No discrepancy

	Enfor	cement	
Items	Yes	No	
(4) Does the Company regularly evaluate its external auditors' independence?	√		
4. Does a TWSE/TPEX listed company set up a full/part-time corporate governance unit or personnel to be in charge of corporate governance affairs including, but not limited to, providing directors and supervisors with required information for business execution, handling relevant matters with board meetings and shareholders meetings according to the laws, processing corporate registration and amendment registration, and preparing minutes of board meetings and shareholders meetings?			
5. Whether the company has established channels of communication with Stakeholders (including but not limited to shareholders, employees, customers and suppliers), and open the Stakeholders section on the company's website, and respond appropriately to Stakeholders' interests/concerns regarding corporate social responsibility.	√		
6. Has the Company appointed a professional registrar for its Shareholders' Meetings?		✓	
7. Information Disclosure (1) Has the Company established a corporate website to disclose information regarding its financials, business and corporate governance status?	√		
(2) Does the Company use other information disclosure channels (e.g. maintaining an English-language website, designating staff to handle information collection and disclosure, appointing spokespersons, webcasting investors conference etc.)?	✓		

Enforcement	Discrepancy between the
Summary Description	corporate governance principles implemented by the Company and the government principles, and the reason for the discrepancy
(4) The evaluation of CPA is one of the main duties of the Audit Committee each year. Wistron evaluates the independence of CPA based on KPMG's Statement of Independence and items stated in Certified Public Accountant Act and "Integrity, Objectivity and Independence.", No.10 of "The Bulletin of Norm of Professional Ethics for Certified Public Accountant of the Republic of China".	No discrepancy
The Chief of Staff Office of the Company is the unit to be in charge of corporate governance affairs and designate the top supervisor of Chief of Staff Office to be in charge of supervision. It is advisable that the corporate governance affairs mentioned in the preceding paragraph include at least the following items: 1. Handling corporate registration and amendment registration. 2. Independent Auditors' Report

To the Board of Directors of Wistron Corporation:

Opinion

We have audited the consolidated financial statements of Wistron Corporation and its subsidiaries ("the Group"), which comprise the consolidated balance sheets as of December 31, 2017 and 2016, the consolidated statements of comprehensive income, changes in equity and cash flows for the years ended December 31, 2017 and 2016, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2017 and 2016, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the International Financial Reporting Standards ("IFRSs"), International Accounting Standards ("IASs"), interpretation as well as related guidance endorsed by the Financial Supervisory Commission of the Republic of China.

Basis for Opinion

We conducted our audit in accordance with the Regulations Governing Auditing and Certification of Financial Statements by Certified Public Accountants and the auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Certified Public Accountants Code of Professional Ethics in Republic of China ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

1. Provision of sales return and allowance

Please refer to Note 4(p), Note 5(a), and Note 6(k) of the consolidated financial statements.

Description of key audit matter

Provision of sales return and allowance is one of the key judgmental areas for our audit, particularly in respect of the estimates made for rebates, chargebacks and returns under contractual requirements which valuated sales return and allowance.

How the matter was addressed in our audit

Our principal audit procedures included testing the Group's controls surrounding the revenue recognition for key manual and systems based controls, tracing general ledger to sales systems and reconciling the differences, and assessing the appropriateness in applying accounting policies to revenue recognition process; our audit work, in respect of the accrual for rebates and returns, involved testing key management controls over the claims and credits. In order to assess the reasonableness of the estimates for such accruals, we considered the appropriateness of the calculation, imputed parameters, key assumptions, and the historical experience.

2. Inventory valuation

Please refer to Note 4(h) "Inventories", Note 5(b), and Note 6(d).

Description of key audit matter

Inventories are stated at the lower of cost or net realizablevalue. With the rapid development of technology, the advance of new electronic products may significantly change consumer demands, which leads to product obsolescence that may result in the cost of inventory to be higher than the net realizable value. Consequently, the valuation of inventories has been identified as another key audit matter.

How the matter was addressed in our audit

In relation to the key audit matter above, our audit procedures include selecting samples to examine their net realizable values to verify the accuracy of inventory aging report; evaluating the reasonableness of the Company's inventory valuation policy and the management's assumption used when measuring allowance for inventory valuation and obsolescence losses; performing a retrospective review of the Company's historical accuracy of judfments with reference to inventory valuation and comparing them with the current year's calculation to evaluate the appropriateness of the estimation and assumption used for inventory valuation; and evaluating the adequacy of the Company's disclosure for inventories.

Other Matter

Wistron Corporation has prepared its parent-company-only financial statements as of and for the years ended December 31, 2017 and 2016, on which we have issued an unqualified opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Regulations Governing the Preparation of Financial Reports by Securities Issuers and IFRSs, IASs, interpretation as well as related guidance endorsed by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- 1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Lily Lu and Chia-Hsin Chang.

KPM(

Taipei, Taiwan (Republic of China) March 13, 2018

Notes to Readers

The accompanying consolidated financial statements are intended only to present the consolidated statement of financial position, financial performance and its cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

The auditors' report and the accompanying consolidated financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language auditors' report and consolidated financial statements, the Chinese version shall prevail.

(English Translation of Consolidated Financial Statements and Report Originally Issued in Chinese) WISTRON CORPORATION AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the years ended December 31, 2017 and 2016

(expressed in Thousands of New Taiwan Dollars, unless otherwise specified)

(1) Company history

Wistron Corporation (the "Company"). was incorporated on May 30, 2001, as a company limited by shares under the laws of the Republic of China (ROC). In pursuant to a restructuring plan of Acer Inc. (AI) to improve its business performance and competitiveness, the Company was formed to acquire the net assets spun off from AI's DMS (Design, Manufacturing, and Service products) business.

The Company and its subsidiaries (hereinafter, jointly referred to as the "Group"), are currently engaged in the research, development, design, manufacturing, testing and sales of the following products and semi-finished products, and their peripheral equipment, parts and components:

- desktop computers, notebook computers, motherboards, servers, system platforms, high-speed and multi-function multiple-CPU computer systems, multi-media computers, network computers, consumer-type computers and special computers, micro-processors, CD-ROMs, PDAs, panel PCs, pocket computers and interface cards;
- (ii) video and internet telephones, video conferencing equipment and telecommunication equipment;
- (iii) digital satellite TV receivers, set-top boxes, digital video decoders and multi-media appliance products;
- (iv) digital cameras, CD-ROM drives and DVD-ROM drives;
- (v) wireless receiver products (mobile phones, wireless LAN cards, and Bluetooth communication modules);
- (vi) LCD TVs and other electronic audio & visual products;
- (vii) design and merchandising of computer software and programs;
- (viii) import and export trade relevant to the business of this company;
- (ix) maintenance and cleaning of electronics products;
- (x) recycling of electronic waste;
- (xi) in vitro diagnostic device, physiological signal diagnostic device and medical date system;
- (xii) manufacturing, processing and selling of electronic products for automobile.

Notes to the Consolidated Financial Statements

(2) Approval date and procedures of the consolidated financial statements:

The consolidated financial statements were authorized for issuance by the Board of Directors of the Company at the Company on March 13, 2018.

(3) New standards, amendments and interpretations adopted:

(a) The impact of the International Financial Reporting Standards ("IFRSs") endorsed by the Financial Supervisory Commission, R.O.C. ("FSC") which have already been adopted.

The following new standards, interpretations and amendments have been endorsed by the FSC and are effective for annual periods beginning on or after January 1, 2017:

New, Revised or Amended Standards and Interpretations	Effective date per IASB
Amendments to IFRS 10, IFRS 12 and IAS 28 "Investment Entities: Applying the Consolidation Exception"	January 1, 2016
Amendments to IFRS 11 "Accounting for Acquisitions of Interests in Joint Operations"	January 1, 2016
IFRS 14 "Regulatory Deferral Accounts"	January 1, 2016
Amendment to IAS 1 " Presentation of Financial Statements-Disclosure Initiative	January 1, 2016
Amendments to IAS 16 and IAS 38 "Clarification of Acceptable Methods of Depreciation and Amortization"	January 1, 2016
Amendments to IAS 16 and IAS 41 "Agriculture: Bearer Plants"	January 1, 2016
Amendments to IAS 19 "Defined Benefit Plans: Employee Contributions"	July 1, 2014
Amendment to IAS 27 "Equity Method in Separate Financial Statements"	January 1, 2016
Amendments to IAS 36 " Impairment of Non-Financial assets- Recoverable Amount Disclosures for Non Financial Assets"	January 1, 2014
Amendments to IAS 39 " Financial Instruments-Novation of Derivatives and Continuation of Hedge Accounting"	January 1, 2014
Annual Improvements to IFRSs 2010 2012 Cycle and 2011 2013 Cycle	July 1, 2014
Annual Improvements to IFRSs 2012 2014 Cycle	January 1, 2016
IFRIC 21 "Levies"	January 1, 2014

The adoption of the above IFRSs did not have any material impact on the accompanying consolidated financial statements.

Notes to the Consolidated Financial Statements

(b) The impact of IFRS endorsed by FSC but not yet effective

The following new standards, interpretations and amendments have been endorsed by the FSC and are effective for annual periods beginning on or after January 1, 2018 in accordance with Ruling No. 1060025773 issued by the FSC on July 14, 2017.

	Effective date
New, Revised or Amended Standards and Interpretations	per IASB
Amendment to IFRS 2 "Clarifications and Measurement of Share based Payment	January 1, 2018
Transactions"	
Amendments to IFRS 4 "Applying IFRS 9 Financial Instruments with IFRS 4	January 1, 2018
Insurance Contracts"	
IFRS 9 "Financial Instruments"	January 1, 2018
IFRS 15 "Revenue from Contracts with Customers"	January 1, 2018
Amendment to IAS 7 "Statement of Cash Flows -Disclosure Initiative"	January 1, 2017
Amendment to IAS 12 "Income Taxes- Recognition of Deferred Tax Assets for	January 1, 2017
Unrealized Losses"	
Amendments to IAS 40 "Transfers of Investment Property"	January 1, 2018
Annual Improvements to IFRS Standards 2014–2016 Cycle:	
Amendments to IFRS 12	January 1, 2017
Amendments to IFRS 1 and IAS 28	January 1, 2018
IFRIC 22 "Foreign Currency Transactions and Advance Consideration"	January 1, 2018

Except for the following items, the Group believes that the adoption of the above IFRSs would not have any material impact on its consolidated financial statements. The extent and impact of signification changes are as follows:

(i) IFRS 9 "Financial Instruments"

IFRS 9 replaces IAS 39 "Financial Instruments: Recognition and Measurement" which contains classification and measurement of financial instruments, impairment and hedge accounting.

1) Classification and measurement of financial assets

IFRS 9 contains a new classification and measurement approach for financial assets that reflects the business model in which assets are managed and their cash flow characteristics. IFRS 9 contains three principal classification categories for financial assets: measured at amortized cost, fair value through other comprehensive income (FVOCI) and fair value through profit or loss (FVTPL). The standard eliminates the existing IAS 39 categories of held to maturity, loans and receivables and available for sale. Under IFRS 9, derivatives embedded in contracts where the host is a financial assets in the scope of the standard are never bifurcated. Instead, the hybrid financial instrument as a whole is assessed for classification. In addition, IAS 39 has an exception to the measurement requirements for investments in unquoted equity instruments that do not have a quoted market price in an active market (and derivatives on such an instrument) and for which fair value cannot therefore be measured reliable. Such financial instruments are measured at cost. IFRS 9 removes this exception, requiring all equity investments (and derivatives on them) to be measured at fair value.

(Continued)

Notes to the Consolidated Financial Statements

Based on its assessment, the Group does not believe that the new classification requirements will have a material impact on its accounting for trade receivables, investments in debt securities and investments in equity securities that are measured on a fair value basis. As of December 31, 2017, the Group had equity investments classified as available-for-sale-current and non-current with a fair value of \$242,666 and \$2,634,133 and financial assets measured at cost of \$1,545,840 that are held for long-term strategic purposes. At initial application of IFRS 9, the Group has designated these investments as measured at FVOCI. Consequently, all fair value gains and losses will be reported in other comprehensive income, no impairment losses would be recognized in profit or loss and no gains or losses will be reclassified to profit or loss on disposal. In the latter case, all fair value gains and losses would be recognized in profit or loss as they arise, increasing volatility in the Group's profits. The Group estimated the application of IFRS 9's classification requirements on January 1, 2018 resulting in the decrease of \$964,625 and the increase of \$513,453 in other comprehensive income and retained earnings, respectively.

2) Transition

Changes in accounting policies resulting from the adoption of IFRS 9 will generally be applied retrospectively, except as described below.

- The Group will take advantage of the exemption allowing it not to restate comparative information for prior periods with respect to classification and measurement (including impairment) changes. Differences in the carrying amounts of financial assets and financial liabilities resulting from the adoption of IFRS 9 generally will be recognized in retained earnings and reserves as at January 1, 2018.
- The following assessments have to be made on the basis of the facts and circumstances that exist at the date of initial application.
 - The determination of the business model within which a financial asset is held.
 - The designation and revocation of previous designations of certain financial assets and financial liabilities as measured at FVTPL.
 - The designation of certain investments in equity instruments not held for trading as at FVOCI.

(ii) IFRS 15 Revenue from Contracts with Customers

IIFRS 15 establishes a comprehensive framework by one single model through five procedures for determining whether, how much and when revenue is recognized. It replaces existing revenue recognition guidance, including IAS 18 "Revenue" and IAS 11 "Construction Contracts".

Notes to the Consolidated Financial Statements

For the sales of products, revenue is currently recognized based on the individual terms of each sales agreement when (i) related risks and rewards of ownership are transferred (ii) sales and costs can be measured reliably and their recoverability is probable (iii) and there is no continuing management involvement with the goods. Under IFRS 15, revenue will be recognized when a customer obtains control over the goods. The Group assessed that the point at which the risks and rewards of ownership transfer is when the control of the promised goods and services are transferred to the customers. Based on the analysis, the adoption of IFRS15 would not have any material impact on its consolidated financial statements.

The Group provides warranties for different categories of products. The warranty provision is currently estimated based on the probability of repair or replacement of the products. Under IFRS 15, the warranties are identified ether as assurance-type warranties or as service-type warranties. If the the Group provide the service-type warranties, that warranties should be accounted for as a separate performance obligation. The Group identified the warranties as standard and service-type; and therefore it also assessed that they would not have any material impact on its consolidated financial statements.

(iii) Amendments to IAS 7 "Disclosure Initiative"

The amendments require disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flow and non-cash changes.

To satisfy the new disclosure requirements, the Group intends to present a reconciliation between the opening and closing balances for liabilities with changes arising from financing activities.

The actual impacts of adopting the standards may change depending on the economic conditions and events which may occur in the future.

(c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

As of the date the following IFRSs that have been issued by the IASB, but not yet endorsed by the FSC:

	Effective date
New, Revised or Amended Standards and Interpretations	per IASB
Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture"	Effective date to be determined by IASB
IFRS 16 "Leases"	January 1, 2019
IFRS 17 "Insurance Contracts"	January 1, 2021
IFRIC 23 "Uncertainty over Income Tax Treatments"	January 1, 2019
Amendments to IFRS 9 "Prepayment features with negative compensation"	January 1, 2019
Amendments to IAS 28 "Long-term interests in associates and joint ventures"	January 1, 2019
Annual Improvements to IFRS Standards 2015–2017 Cycle	January 1, 2019
Amendments to IAS 19 "Plan Amendment, Curtailment or Settlement"	January 1, 2019

(Continued)

Effective date

Notes to the Consolidated Financial Statements

Those which may be relevant to The Group are set out below:

Issuance / Release Dates	Standards or Interpretations	Content of amendment
January 13, 2016	IFRS 16 "Leases"	The new standard of accounting for lease is amended as follows:
		 For a contract that is, or contains, a lease, the lessee shall recognize a right of use asset and a lease liability in the balance sheet. In the statement of profit or loss and other comprehensive income, a lessee shall present interest expense on the lease liability separately from the depreciation charge for the right of-use asset during the lease term. A lessor classifies a lease as either a finance lease or an operating lease, and therefore, the accounting remains similar
June 7, 2017	IFRIC 23 "Uncertainty over Income Tax Treatments"	to IAS 17. • In assessing whether and how an uncertain tax treatment affects the determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates, an entity shall assume that a taxation authority will examine the amounts it has the right to examine and have a full knowledge on all related information when making those examinations.

• If an entity concludes that it is probable that the taxation authority will accept an uncertain tax treatment, the entity shall determine the taxable profit (tax loss), tax bases, unused tax losses, unused tax credits or tax rates consistently with the tax treatment used or planned to be used in its income tax filings. Otherwise, an entity shall reflect the effect of uncertainty for each uncertain tax treatment by using either the most likely amount or the expected value, depending on which method the entity expects to better predict the resolution of the uncertainty.

Notes to the Consolidated Financial Statements

Issuance / Release Dates	Standards or Interpretations	Content of amendment
February 7, 2018	Amendments to IAS 19 "Plan Amendment, Curtailment or Settlement"	The amendments clarify that: • on amendment, curtailment or settlement of a defined benefit plan, a company now uses updated actuarial assumptions to determine its current service cost and net interest for the remainder of the reporting period after the change to the plan; and • the effect of the asset ceiling is disregarded when calculating past service cost and the gain or loss on settlement. Any change in that effect is recognised in other comprehensive income.

The Group is evaluating the impact on its consolidated financial position and consolidated financial performance upon the initial adoption of the abovementioned standards or interpretations. The results thereof will be disclosed when the Group completes its evaluation.

(4) Summary of significant accounting policies

The significant accounting policies presented in the consolidated financial statements are summarized as follows. And the accounting policies have been applied consistently to all periods presented in these consolidated financial statements.

(a) Statement of compliance

These consolidated financial statements are prepared in accordance with "Regulations Governing the Preparation of Financial Reports by Securities Issuers" (hereinafter referred to as the Regulations) and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations and SIC Interpretations endorsed by the Financial Supervisory Commission, ROC.

(b) Basis of preparation

(i) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for the following material items in the statement of financial position:

- 1) Financial instruments measured at fair value through profit or loss are measured at fair value;
- 2) Available-for-sale financial assets are measured at fair value;

Notes to the Consolidated Financial Statements

3) The defined benefit liabilities (assets) are recognized as the present value of the defined obligation, and the effect of the plan assets celling disclosure in note 4(m) less plan assets.

(ii) Functional and presentation currency

The functional currency of the Group is determined based on the primary economic environment in which the entity operates. The Group's consolidated financial statements are presented in New Taiwan dollar, which is the Company's functional currency. All financial information presented in New Taiwan dollar has been rounded to the nearest thousand.

(c) Basis of consolidation

(i) Principle of preparation of the consolidated financial statements

The consolidated financial statements comprise the Company and its subsidiaries.

The Group controls an entity when it is exposed or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through its control over the entity.

The financial statements of the subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests, even if doing so causes the non-controlling interests to have a deficit balance.

Accounting policies of subsidiaries have been adjusted to ensure consistency with the policies adopted by the Group.

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Any differences between the Group's share of net assets before and after the change, and any considerations received or paid, are adjusted to or against the Group reserves.

(ii) Losing control of subsidiaries

When the Group loses control of its subsidiaries, the assets (including goodwill) and liabilities and any non-controlling interests of the former subsidiary at their carrying amounts at the date when control is lost will be derecognized and any investment retained in the former subsidiary at its fair value at the date when control is lost will be remeasured in the consolidated financial statement.

Notes to the Consolidated Financial Statements

The difference of disposal gain or loss is between the aggregate of (i) the fair value of the consideration received and any investment retained in the former subsidiary at its fair value at the date when control is lost and (ii) the assets (including goodwill) and liabilities and any non-controlling interests of the former subsidiary at their carrying amounts at the date when control is lost. The Group accounts for all amounts recognized in other comprehensive income in relation to that subsidiary on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

- (iii) List of subsidiaries in the consolidated financial statements
 - 1) Subsidiaries which are engaged in research, design, testing, manufacturing and sales of personal computers, servers, multi-media appliance products, telecommunication products, network systems, and medical devices:

		Percentage of	ownership
Investor	Name of subsidiary	December 31, 2017	December 31, 2016

the Company	Wistron Medical Tech Holding Company ("WMH", Taiwan)	100.00	100.00
the Company	Wistron Digital Technology Holding Corporation ("WDH", Taiwan)	100.00	100.00

(Note 1) WZS merged with ATZS in the first quarter of 2017. WZS was the surviving company and ATZS had been liquidated.

- (iv) Subsidiaries excluded from consolidated: None.
- (d) Foreign currency
 - (i) Foreign currency transaction

Transactions in foreign currencies are translated to the functional currency of the Group at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. The foreign currency gains or losses on monetary items are the differences between amortized cost in the functional currency at the beginning of the year adjusted for the effective interest and payments during the period, and the amortized cost in foreign currency translated at the exchange rate at the reporting date.

Notes to the Consolidated Financial Statements

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items in a foreign currency that are measured based on historical cost are translated using the exchange rate at the date of translation.

Foreign currency differences arising on retranslation are recognized in profit or loss, except for the following differences which are recognized in other comprehensive income arising on the retranslation:

- available-for-sale equity investment;
- a financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; or
- qualifying cash flow hedges to the extent the hedge is effective.

(ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to the Group's functional currency at exchange rates at the reporting date. The income and expenses of foreign operations, are translated to the functional currency at average rate. Foreign currency differences are recognized in other comprehensive income, and presented in the foreign currency translation differences in equity.

However, if the foreign operation is a non-wholly owned subsidiary, then the relevant proportion of the translation difference is allocated to non-controlling interests. When a foreign operation is disposed of such that control, significant influence or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Group disposes of any part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interest. When the Group disposes of only part of investment in an associate of joint venture that includes a foreign operation while retaining significant or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary item receivable from or payable to a foreign operation is neither planed nor likely in the foreseeable future, foreign currency gains and losses arising from such items are considered to form part of a net investment in the foreign operation and are recognized in other comprehensive income, and presented in the translation reserve in equity.

(e) Classification of current and non-current assets and liabilities

The entity shall classify an asset as current when:

(i) It is expected to be realized the asset, or intended to be sold or consumed during the normal operating cycle;

Notes to the Consolidated Financial Statements

- (ii) It is held primarily for the purpose of trading;
- (iii) It is expected to be realized within twelve months after the reporting period; or
- (iv) The asset is cash and cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

The entity shall classify all other assets as non-current.

The entity shall classify a liability as current when:

- (i) It is expected to be settled during its normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) The liability is due to be settled within twelve months after the reporting period; or
- (iv) It does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

The entity shall classify all other liabilities as non-current.

(f) Cash and cash equivalents

Cash and cash equivalents comprise cash, demand deposits, and call deposits that are subject to an insignificant risk of changes in their fair value, and are used by the Group in the management of its short-term commitments. Time deposits meet aforementioned definitions that are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes, and that are subject to an insignificant risk of changes in their fair value are recognized as cash and cash equivalents.

Bank overdraft that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of the consolidated statement of cash flows.

(g) Financial Instruments

Financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instruments.

(i) Financial assets

The Group classifies financial assets into the following categories: financial assets at fair value through profit or loss, available-for-sale financial assets, loans and receivables. Apply to trade date accounting when purchasing or selling financial assets by trade practices.

(Continued)

Notes to the Consolidated Financial Statements

1) Financial assets at fair value through profit or loss

A financial asset is classified in this category if it is classified as held-for-trading or is designated as such on initial recognition. Financial assets classified as held-for-trading if it is acquired principally for the purpose of selling in the short term.

Financial assets in this category are measured at fair value at initial recognition. Attributable transaction costs are recognized in profit or loss as incurred. Financial assets at fair value through profit or loss are measured at fair value subsequently and changes therein, which takes into account any dividend and interest income, are recognized in profit or loss, and are accounted for under other income.

2) Available-for sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated available-for-sale or are not classified in any of the other categories of financial assets. Available-for-sale financial assets are recognized initially at fair value, plus, any directly attributable transaction cost. Subsequent to initial recognition, they are measured at fair value and changes therein, other than impairment losses, interest income calculated using the effective interest method, dividend income, and foreign currency differences on available-for-sale debt instruments, are recognized in other comprehensive income and presented in the fair value reserve in equity. When an investment is derecognized, the cumulative gain or loss in equity is reclassified to profit or loss, and it is included in other gains and losses.

Investments in equity instruments that do not have a quoted market price in an active market, and whose fair value cannot be reliably measured, are measured at amortized cost, and are included in financial assets measured at cost.

Dividend income is recognized in profit or loss on the date that the Group's right to receive payment is established, which in the case of quoted securities is normally the exdividend date. Such dividend income is included in other income.

3) Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables comprise trade receivables and other receivables. Such assets are recognized initially at fair value, plus, any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortized cost using the effective interest method, less any impairment losses, other than insignificant interest on short-term receivables.

Interest income is recognized into profit or loss, and it is included in other income.

Notes to the Consolidated Financial Statements

4) Impairment of financial assets

Except for financial assets at fair value through profit or loss financial assets are assessed for impairment at each reporting date. A financial asset is impaired if, and only if, there is objective evidence of impairment as a result of one or more events (a loss event) that occurred subsequent to the initial recognition of the asset and that a loss event (or events) has an impact on the future cash flows of the financial assets that can be estimated reliably.

Objective evidence that financial assets are impaired includes default or delinquency by a debtor, restructuring of an amount due to the Group on terms that the Group would not consider otherwise, indications that a debtor or issuer will enter bankruptcy, adverse changes in the payment status of borrowers or issuers, economic conditions that correlate with defaults or the disappearance of an active market for a security. In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is accounted for as objective evidence of impairment.

All individually significant receivables are assessed for specific impairment. Receivables that are not individually significant are collectively assessed for impairment by grouping together assets with similar risk characteristics. In assessing collective impairment, the Group uses historical trends of the probability of default, the timing of recoveries and the amount of loss incurred, adjusted for management's judgment as to whether current economic and credit conditions are such that the actual losses are likely to be greater or lesser than the one suggested by historical trends.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of its estimated future cash flows discounted at the asset's original effective interest rate.

An impairment loss in respect of a financial asset measured at cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss is not reversible in subsequent periods.

An impairment loss in respect of a financial asset is deducted from the carrying amount except for accounts receivable, for which an impairment loss is reflected in an allowance account against the receivables. When it is determined a receivable is uncollectible, it is written off from the allowance account. Changes in the amount of the allowance account are recognized in profit or loss.

Impairment losses on available-for-sale financial assets are recognized by reclassifying the losses accumulated in the fair value reserve in equity to profit or loss.

If, in a subsequent period, the amount of impairment loss on a financial asset measured at amortized cost decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the decrease in impairment loss is reversed through profit or loss, to the extent that the carrying value of the asset does not exceed its amortized cost before the impairment loss was recognized at the reversal date.

(Continued)

Notes to the Consolidated Financial Statements

Impairment losses recognized on available-for-sale equity security are not reversed through profit or loss. Any subsequent recovery in the fair value of an impaired available-for-sale equity security is recognized in other comprehensive income, and accumulated in equity. If, in a subsequent period, the fair value of an impaired available-for-sale debt security increases and the increase can be related objectively to an event occurring after the impairment loss was recognized, then impairment loss is reversed with the amount of the reversal recognized in profit or loss.

Impairment losses and recoveries of accounts receivable are recognized in operating expenses; impairment losses and recoveries of other financial assets are recognized in other gains or losses.

5) Derecognition of financial assets

Financial assets are derecognized when the contractual rights of the cash inflow from the asset are terminated, or when all the risks and rewards of ownership of the financial assets are substantially transferred.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received or receivable and any cumulative gain or loss that had been recognized in other comprehensive income and presented in other equity-unrealized gains or losses from available for sale financial assets is recognized in profit or loss, under other gains and losses.

On partial derecognition of a financial assets, the difference between the carrying amount and the sum of the consideration received or receivable and any cumulative gain or loss that had been recognized in other comprehensive income and presented in other equity account unrealized gains or losses from available for the sale financial assets is reclassified profit or loss, under other gains and losses.

(ii) Financial liabilities

1) Classification of debt or equity

Debt or equity instruments issued by the Group are classified as financial liabilities or equity in accordance to the substance of the contractual agreement.

Equity instruments refer to surplus equities of the assets after the deduction of all the debts for any contracts. Equity instruments issued is recognized as the amount of consideration received less the direct cost of issuing.

Interest related to the financial liability is recognized in profit or loss, under finance costs.

On conversion, the financial liability is reclassified to equity and no gain or loss is recognized.

Notes to the Consolidated Financial Statements

2) Financial liabilities at fair value through profit or loss

A financial liability is classified in this category if it is classified as held-for-trading or if it is designated as such on initial recognition. Attributable transaction costs are recognized in profit or loss as incurred. Financial liabilities at fair value through profit or loss are measured at fair value subsequently and changes therein, which takes into account any interest expense, are recognized in profit or loss, and are included in finance costs.

3) Other financial liabilities

Financial liabilities not classified as held-for-trading or designated as at fair value through profit or loss, which comprise loans and borrowings, accounts payable and other payables, are measured at fair value plus any directly attributable transaction cost at the time of initial recognition. Subsequent to initial recognition, they are measured at amortized cost calculated using the effective interest method. Interest expense not capitalized as capital cost is recognized in profit or loss, and is included in finance costs.

4) Derecognition of financial liabilities

A financial liability is derecognized when its contractual obligation has been discharged, cancelled or expired. The difference between the carrying amount of a financial liability derecognized and the consideration paid including any non-cash assets transferred or liabilities assumed is recognized in profit or loss, and are included in other gains and losses.

5) Offsetting of financial assets and liabilities

Financial assets and liabilities on a net basis when the Group has the legally enforceable rights to offset, and intends to settle such financial assets and liabilities on a net basis or to realize the assets and settle the liabilities simultaneously.

(iii) Derivative financial instruments

The Group holds derivative financial instruments to hedge its foreign currency and interest rate exposures. Derivatives are recognized initially at fair value, and attributable transaction costs are recognized in profit or loss as incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are recognized in profit or loss and included in other gains and losses. When a derivative is designated as a hedging instrument, its timing of recognition in profit or loss is determined based on the nature of the hedging relationship. When the fair value of a derivative instrument is positive, it is classified as a financial asset, and when the fair value is negative, it is classified as a financial liability.

For derivatives that are linked to investments in equity instruments that do not have a quoted market price in an active market and must be settled by delivery of such an unquoted equity instrument, those that are classified as financial assets are measured at amortized cost, and included in financial assets measured at cost; and those that are classified as financial liabilities are measured at cost, and included in financial liabilities measured at cost.

Notes to the Consolidated Financial Statements

Embedded derivatives are separated from the host contract and accounted for separately when the economic characteristics and risk of the host contract and of the embedded derivatives are not closely related.

(h) Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories is calculated using the weighted average method, and includes expenditure incurred in acquiring the inventories, production or conversion costs, and other costs incurred in bringing them to their existing location and condition. The standard cost method is adopted for inventory costing and the difference between standard cost and actual cost is allocated proportionately to inventory except for an unfavorable variance from normal capacity.

In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity. Net realizable value is determined based on the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses at the end of the period.

Investment in associates (i)

Associates are those entities in which the Group has significant influence, but not control or join control over their financial and operating policies.

Investments in associates are accounted for using the equity method and are recognized initially at cost. The cost of the investment includes transaction costs. The carrying amount of the investment in associates includes goodwill which is arising from the acquisition less any accumulated impairment losses.

The consolidated financial statements include the Group's share of the profit or loss and other comprehensive income of equity accounted investees, after adjustments to align the accounting policies with those of the Group, from the date that significant influence commences until the date that significant influence ceases. The Group recognizes any changes, proportionately with the shareholding ratio under additional paid in capital, when an associate's equity changes due to reasons other than profit and loss or comprehensive income, which did not result in changes in actual controlling power.

Unrealized profits resulting from the transactions between the Group and an associate are eliminated to the extent of the Group's interest in the associate. Unrealized losses on transactions with associates are eliminated in the same way, except to the extent that the underlying asset is impaired.

When the Group's share of losses exceeds its interest in associates, the carrying amount of the investment, including any long-term interests that form part thereof, is reduced to zero, and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the investee.

Notes to the Consolidated Financial Statements

The Group shall discontinue the use of the equity method from the date when its investment ceases to be an associate or a joint venture. The Group shall measure the retained interest at fair value. The difference between the fair value of retained interest and proceeds from disposal, and the carrying amount of the investment at the date the equity method was discontinued is recognized in profit or loss. The Group shall account for all the amounts previously recognized in other comprehensive income in relation to that investment on the same basis as would have been required if the associates had directly disposed of the related assets or liabilities. If a gain or loss previously recognized in other comprehensive income would be reclassified to profit or loss on the disposal of the related assets or liabilities, the entity shall reclassify the gain or loss from equity to profit or loss (as a reclassification adjustment) when the equity method is discontinued. If an entity's ownership interest in an associate or a joint venture is reduced while the entity continues to apply the equity method, the entity shall reclassify the proportion of the gain or loss that had previously been recognized in other comprehensive income relating to that reduction in ownership interest to profit or loss.

If an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate, the Group shall continue to apply the equity method without remeasuring the retained interest.

When the Group subscribes to additional shares in an associate at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment will differ from the amount of the Group's proportionate interest in the net assets of the associate. The Group records such a difference as an adjustment to investments, with the corresponding amount charged or credited to capital surplus. The aforesaid adjustment should first be adjusted under capital surplus. If the capital surplus resulting from changes in ownership interest is not sufficient, the remaining difference is debited to retained earnings. If the Group's ownership interest is reduced due to the additional subscription to the shares of the associate by other investors, the proportionate amount of the gains or losses previously recognized in other comprehensive income in relation to that associate shall be reclassified to profit or loss on the same basis as would be required if the associate had directly disposed of the related assets or liabilities.

(j) Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributed to the acquisition of the asset.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item shall be depreciated separately, unless the useful life and the depreciation method of the significant part of an item of property, plant and equipment are the same as the useful life and depreciation method of another significant part of that same item.

The gain or loss arising from the derecognition of an item of property, plant and equipment shall be determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item, and it shall be recognized as other gains and losses.

Notes to the Consolidated Financial Statements

(ii) Subsequent cost

Subsequent expenditure is capitalized only when it is probable that the future economic benefits associated with the expenditure will flow to the Group. The carrying amount of those parts that are replaced is derecognized. Ongoing repairs and maintenance are expensed as incurred.

(iii) Depreciation

The depreciable amount of an asset is determined after deducting its residual amount and it shall be allocated on a systematic basis over its useful life. The items of property, plant and equipment with the same useful life may be grouped in determining the depreciation charge. The remainder of the items may be depreciated separately. The depreciation charge for each period shall be recognized in profit or loss.

Land has an unlimited useful life and therefore is not depreciated.

The estimated useful lives for the current and comparative years of significant items of property, plant and equipment are as follows:

1) Buildings and improvements: 20 to 50 years

2) Machinery and equipment: 3 to 10 years

3) Molding equipment: 1 year

4) Research and development equipment: 3 to 5 years

5) Furniture, fixtures and other equipment: 3 to 10 years

Depreciation methods, useful lives, and residual values are reviewed at each reporting date. If expectations differ from the previous estimates, the change are accounted for as changes in an accounting estimate.

(k) Lease

(i) Lessor

Lease income from operating lease is recognized in profit or loss on a straight-line basis over the lease term. Initial direct costs incurred in negotiating and arranging an operating lease is added to the carrying amount of the leased asset and recognized as an expense over the lease term on the same basis as the lease income. Incentives granted to the lessee to enter into the operating lease are spread over the lease term on a straight-line basis so that the lease income received is reduced accordingly.

(ii) Lessee

Leases are operating leases and are not recognized in the Group's non-consolidated balance sheets.

Notes to the Consolidated Financial Statements

Payments made under operating lease (excluding insurance and maintenance expenses) are recognized in profit or loss on a straight-line basis over the term of the lease. Lease incentives received are recognized as an integral part of the total lease expense, over the term of the lease.

Contingent rent is recognized as expense in the periods in which they are incurred.

(1) Intangible assets

(i) Goodwill

1) Initial Recognition

Goodwill which results from purchasing is including in intangible asset.

2) Subsequent Expenditure

Goodwill is measured at cost, less, accumulated impairment losses. In respect of equity accounted investees, the carrying amount of goodwill is included in the carrying amount of the investment, and any impairment loss is allocated to the carrying amount of the equity accounted investee as a whole.

(ii) Research and development

During the research phase, activities are carried out to obtain and understand new scientific or technical knowledge. Expenditures during this phase are recognized in profit or loss as incurred.

Expenditures arising from the development phase shall be recognized as an intangible asset if all the conditions described below can be demonstrated; otherwise, they will be recognized in profit or loss as incurred.

- 1) The technical feasibility of completing the intangible asset so that it will be available for use or sale.
- 2) The intention to complete the intangible asset and use or sell it.
- 3) The ability to use or sell the intangible asset.
- 4) How the intangible asset will generate probable future economic benefits.
- 5) The availability of adequate technical, financial, and other resources to complete the development and to use or sell the intangible asset.
- 6) The ability to measure reliably the expenditure attributable to the intangible asset during its development.

Intangible assets arising from the development phase is measured at cost, less, accumulated amortization or impairment losses.

(Continued)

Notes to the Consolidated Financial Statements

(iii) Other Intangible Assets

Other intangible assets that are acquired by the Group are measured at cost, less, accumulated amortization and any accumulated impairment losses.

(iv) Subsequent Expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

(v) Amortization

Depreciable amount is the cost of an asset, or other amount substituted for cost, less, its residual values.

Amortization is recognized in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill and intangible assets with indefinite useful life, from the date that they are available for use. The estimated useful lives for the current and comparative periods are as follows:

1) Patents: 3 to 10 years

2) Software: 3 to 10 years

3) Customer relationships: 5 years

The residual value, the amortization period and the amortization method for an intangible asset with a finite useful life shall be reviewed at least annually at each financial year-end. Such change shall be accounted for as changes in accounting estimates.

(m) Impairment-Non-derivative financial assets

The carrying amounts of the Group's non financial assets, other than assets arising from inventories, deferred tax assets, and assets arising from employee benefits, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. If it is not possible to determine the recoverable amount (fair value, less, cost to sell and value in use) for the individual asset, then the Group will have to determine the recoverable amount for the asset's cash-generating unit (CGU).

Notwithstanding whether indicators exist, recoverability of goodwill and intangible assets with indefinite useful lives or those not yet in use are tested at least annually. Impairment loss is recognized if the recoverable amount is less than the carrying amount

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

Notes to the Consolidated Financial Statements

The recoverable amount for individual asset or a cash-generating unit is the higher of its fair value, less, costs to sell and its value in use. If, and only if, the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset shall be reduced to its recoverable amount; and that reduction will be accounted as an impairment loss, which shall be recognized immediately in profit or loss.

The Group should assess at the end of each reporting period whether there is any indication that an impairment loss recognized in prior periods for an asset other than goodwill may no longer exist or may have decreased. If any such indication exists, the entity shall estimate the recoverable amount of that asset. An impairment loss recognized in prior periods for an asset other than goodwill shall be reversed if, and only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If this is the case, the carrying amount of the asset shall be increased to its recoverable amount. That increase is a reversal of an impairment loss.

(n) Provisions

A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probably that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

A provision for warranties is recognized when the underlying products or services are sold. The provision is based on historical warranty data and all possible outcomes weighed by their respective probabilities.

(o) Treasury stock

Repurchased shares are recognized under treasury shares (a contra-equity account) based on its repurchase price (including all directly accountable costs), and net of tax. Gains on disposal of treasury shares should be recognized under Capital Reserve – Treasury Shares Transactions; Losses on disposal of treasury shares should be offset against existing capital reserves arising from similar types of treasury shares. If there are insufficient capital reserves to be offset against, then such losses should be accounted for under retained earnings. The carrying amount of treasury shares should be calculated using the weightage of different types of repurchase.

During the cancellation of treasury shares, capital surplus – share premiums and capital should be debited proportionately. Gains on cancellation of treasury shares should be recognized under existing capital reserves arising from similar types of treasury shares; losses on cancellation of treasury shares should be offset against existing capital surplus arising from similar types of treasury shares. If there are insufficient capital surplus to be offset against, then such losses should be accounted for under retained earnings.

Notes to the Consolidated Financial Statements

(p) Revenue

(i) Goods sold

Revenue from the sale of goods in the course of ordinary activities is measured at the fair value of the consideration received or receivable, net of returns, trade discounts and volume rebates. Revenue is recognized when persuasive evidence exists, usually in the form of an executed sales agreement that the significant risks and rewards of ownership have been transferred to the customer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably. If it is probable that discounts will be granted and the amount can be measured reliably, then the discount is recognized as a reduction of revenue as the sales are recognized.

The timing of the transfers of risks and rewards varies depending on the individual terms of the sales agreement.

(ii) Services

The Group renders repair services. Repair income is recognized when the services are rendered.

(q) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution pension plans are recognized as an employee benefit expense in profit or loss in the periods during which services are rendered by employees.

(ii) Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Group's net obligation in respect of defined benefit pension plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is the yield at the reporting date on government bonds that have maturity dates approximating the terms of the Group's obligations and that are denominated in the same currency in which the benefits are expected to be paid.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Group, the recognized asset is limited to the total of any unrecognized past service costs and the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements that apply to any plan in the Group. An economic benefit is available to the Group if it is realizable during the life of the plan, or on settlement of the plan liabilities.

Notes to the Consolidated Financial Statements

When the benefits of a plan are improved, the portion of the increased benefit relating to past service by employees is recognized in profit or loss on a straight-line basis over the average period until the benefits become vested. The expense is recognized immediately in profit or loss to the extent that the benefits vest immediately.

Remeasurements of the net defined benefit liability (asset), which comprise (1) actuarial gains and losses, (2) the return on plan assets (excluding interest) and (3) the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income. The Group can reclassify the amounts recognized in other comprehensive income to retained earnings or other equity. If the amounts recognized in other comprehensive income are transferred to other equity, they shall not be reclassified to profit or loss or recognized in retained earnings in a subsequent period.

The Group recognizes gains or losses on the curtailment or settlement of a defined benefit plan when the curtailment or settlement occurs. The gain or loss on curtailment comprises any resulting change in the fair value of plan assets, change in the present value of defined benefit obligation and any related actuarial gains or losses and past service cost that had not previously been recognized.

(iii) Short-term employee benefits

Short-term employee benefit obligation is recognized for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

(r) Share-based payment

The grant-date fair value of share-based payment awards granted to employee is recognized as employee expenses, with a corresponding increase in equity, over the period that the employees become unconditionally entitled to the awards. The amount recognized as an expense is adjusted to reflect the number of awards which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognized as an expense is based on the number of award that meet the related service and non-market performance conditions at the vesting date.

For share-based payment awards with non-vesting conditions, the grant-date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

The grant date of share-based payment is the date that the subscription price and shares are authorized by the Board of Directors.

Notes to the Consolidated Financial Statements

(s) Income Taxes

Income tax expenses include both current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes shall be recognized in profit or loss.

Current taxes include tax payables and tax deduction receivables on taxable gains (losses) for the year calculated using the statutory tax rate on the reporting date or the actual legislative tax rate, as well as tax adjustments related to prior years.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred taxes shall not be recognized for the below exceptions:

- (i) Assets and liabilities that are initially recognized but are not related to the business combination and have no effect on net income or taxable gains (losses) during the transaction.
- (ii) Temporary differences arising from equity investments in subsidiaries or joint ventures where there is a high probability that such temporary differences will not reverse.
- (iii) Initial recognition of goodwill.

Deferred tax assets and liabilities shall be measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities may be offset against each other if the following criteria are met:

- (i) The entity has the legal right to settle tax assets and liabilities on a net basis; and
- (ii) the taxing of deferred tax assets and liabilities fulfill one of the below scenarios:
 - 1) levied by the same taxing authority; or
 - 2) levied by different taxing authorities, but where each such authority intends to settle tax assets and liabilities (where such amounts are significant) on a net basis every year of the period of expected asset realization or debt liquidation, or where the timing of asset realization and debt liquidation is matched.

A deferred tax asset should be recognized for the carry-forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profit will be available against which the unused tax losses, unused tax credits, and deductible temporary differences can be utilized. Such unused tax losses, unused tax credits, and deductible temporary differences shall also be revaluated every year on the financial reporting date, and adjusted based on the probability that future taxable profit will be available against which the unused tax losses, unused tax credits, and deductible temporary differences can be utilized.

Notes to the Consolidated Financial Statements

(t) Business combination

Goodwill is measured at the consideration transferred less the amounts of the identifiable assets acquired and liabilities assumed (generally at fair value) at the acquisition date. If the amount of net assets acquired and liabilities assumed exceeds the acquisition price, the Group re assesses whether it has correctly identified all of the assets acquired and liabilities assumed, and recognize a gain for the excess.

All transaction costs relating to a business combination are recognized immediately as expenses when incurred, except for the issuance of debt or equity instruments.

The Group shall measure any non controlling interests in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets if the non-controlling interests are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation. Other non-controlling interests are evaluated by their fair value or by another basis permitted by the IFRSs endorsed by the FSC.

(u) Earnings per share

The Group discloses the Company basic and diluted earnings per share attributable to ordinary equity holders of the Company. The calculation of basic earnings per share is based on the profit attributable to the ordinary shareholder of the Company divided by weighted average number of ordinary shares outstanding. The calculation of diluted earnings per share is based on the profit attributable to ordinary shareholders of the Company, divided by weighted average number of ordinary shares outstanding after adjustment for the effects of all dilutive potential ordinary shares, such as convertible notes, employee stock options, unvested restriction stock option, and accrued employee compensation.

(v) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may incur revenues and incur expenses including revenues and expenses relating to transactions with other components of the Group. Operating results of the operating segment are regularly reviewed by the Group's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance. Each operating segment consists of standalone financial information.

(5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty

The preparation of the consolidated financial statements in conformity with the IFRSs endorsed by the FSC requires management to make judgments, estimates, and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income, and expenses. Actual results may differ from these estimates.

The management continues to monitor the accounting estimates and assumptions. The management recognizes any changes in accounting estimates during the period and the impact of those changes in accounting estimates in the following period.

Notes to the Consolidated Financial Statements

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognized in the consolidated financial statements is as follows:

(a) Provision of sales return and allowance

The Group records a provision for estimated future returns and other allowances in the same period the related revenue is recorded. Provision for estimated sales returns and other allowances is generally made and adjusted based on historical experience, market and economic conditions, and any other known factors that would significantly affect the allowance. The adequacy of estimations is reviewed periodically. The fierce market competition and evolution of technology could result in significant adjustments to the provision made.

(b) Inventory valuation

As inventories are stated at the lower of cost or net realizable value, the Group estimates the net realizable value of inventories for obsolescence and unmarketable items at the end of the reporting period and then writes down the cost of inventories to net realizable value. The net realizable value of the inventory is mainly determined based on assumptions as to future demand within a specific time horizon. Due to the rapid industrial transformation, there may be significant changes in the net realizable value of inventories. Refer to note 6(d) for further description of the valuation of inventories.

(6) Explanation of significant accounts

(a) Cash and cash equivalents

	De	ecember 31, 2017	December 31, 2016
Cash on hand	\$	22,976	39,939
Demand and check deposits		47,371,388	45,338,202
Time deposits		21,204,669	13,485,878
Cash and cash equivalents		68,599,033	58,864,019
Bank overdrafts used for cash management purposes		(2,612,916)	(1,302,969)
Cash and cash equivalents in consolidated statement of cash flows	\$	65,986,117	<u>57,561,050</u>

Please refer to note 6(t) for the fair value sensitivity analysis ad interest rate risk of the financial assets and liabilities of the Group.

Notes to the Consolidated Financial Statements

- (b) Financial assets
 - (i) Financial assets and liabilities at fair value through profit or loss
 - 1) Financial assets at fair value through profit or loss-current:

	December 31, 2017		December 31, 2016	
Foreign currency swap contracts	\$	5,022	254,515	
Foreign currency forward contracts		46,453	4,409	
	\$	51,475	258,924	

2) Financial liabilities at fair value through profit or loss-current:

	December 31, 2017		December 31, 2016
Foreign currency swap contracts	\$	155,740	19,071
Foreign currency forward contracts		66,501	6,059
	\$	222,241	25,130

Re-measurement at fair value recognized in profit or loss is disclosed in note 6(r).

The Group uses derivative financial instruments to hedge the certain foreign exchange and interest risk the Group is exposed to, arising from its operating, financing and investing activities. As of December 31, 2017 and 2016, derivative financial instruments not qualified for hedge accounting were as follows:

1) Foreign currency swap contracts:

December 31, 2017			December 31, 2016		r 31, 2016
A	mount			Amount	
(in tl	housands)	Currency	(in t	thousands)	Currency
	-	-	USD_	27,000	USD Put /TWD Call
EUR_	18,500	EUR Put /USD Call		-	-
USD_	1,116,000	TWD Put / USD Call	USD_	1,365,000	TWD Put / USD Call
USD	3,400	CNY Put / USD Call		-	-

Notes to the Consolidated Financial Statements

2) Foreign currency forward contracts:

December 31, 2017		December 31, 2016			
	mount ousands)	Currency		ount ousands)	Currency
	-	-	USD	74,000	USD Put /TWD Call
USD	91,000	USD Put /CNY Call	USD	15,000	USD Put /CNY Call
USD	400,000	TWD Put / USD Call		-	-
USD_	15,000	CNY Put / USD Call		-	-

- (ii) Available-for-sale financial assets
 - 1) Available-for-sale financial assets-current:

	December 31,	
	2017	2016
Funds	\$ 242,666	756,632

2) Available-for-sale financial assets-non-current:

	December 31, 2017		December 31, 2016	
Investment in listed securities:				
Stock listed on domestic markets	\$	2,004,122	2,228,090	
Stock listed on foreign markets		630	485	
Investment in unlisted securities:				
Stock unlisted on domestic markets		100,222	108,578	
Stock unlisted on foreign markets		529,159	465,567	
	\$	2,634,133	2,802,720	

Sensitivity analysis-equity price risk

Equity price change would have the impact on other comprehensive income (after tax) as follows. The basis of analysis used are the same in both periods and assumes that all other variables remain constant.

	2017	2016
	After-tax other	After-tax other
Price of securities at reporting date	comprehensive income	comprehensive income
Increasing 3%	\$ 76,322	81,705
Decreasing 3%	\$ (76,322)	(81,705)

Notes to the Consolidated Financial Statements

Gain from disposal of equity investment is disclosed in note 6(s). Gain or loss arising from re-measurement as fair value recognized in other comprehensive income is disclosed in note 6(p).

(iii) Financial assets measured at cost:

	Dec	cember 31, 2017	December 31, 2016
Stock unlisted on domestic markets	\$	170,000	170,000
Stock unlisted on foreign markets		634,123	730,872
Others		741,717	638,193
	\$	1,545,840	1,539,065

- (iv) As of December 31, 2017 and 2016, the financial assets were not pledged.
- (c) Notes and accounts receivable and other current assets-other receivables

	December 31, 2017		December 31, 2016	
Notes receivable	\$	239,988	2,743	
Accounts receivable		95,138,957	90,546,481	
Accounts receivable-related parties		51,462	5,769	
Other current assets-other receivables		9,777,191	6,103,401	
Other receivables-related parties		10,115	4,678	
Less: allowance for doubtful accounts		(778,656)	(821,742)	
	\$	104,439,057	95,841,330	

The detail of notes and accounts receivable, accounts receivable-related parties, other current assetsother receivables and other receivable-related parties that were past due but not impaired were as follows:

	Dec	December 31, 2017	
Past due 0~30 days	\$	979,751	2,639,922
Past due 31~60 days		857,426	54,752

(Continued)

Notes to the Consolidated Financial Statements

The Group believed that the receivables were recoverable basing on the low default rates and analysis of clients' credit rating.

For the years ended December 31, 2017 and 2016, the movements of allowance for doubtful accounts with respect to notes and accounts receivable, accounts receivable-related parties, other current assets-other receivable and other receivable-related parties were as follows:

	Individually assessed		Collectively assessed	
	im	pairment_	<u>impairment</u>	Total
Balance at January 1, 2017	\$	622,827	198,915	821,742
Impairment loss recognized (reversed)		(43,552)	1,174	(42,378)
Written off unrecoverable amount		(34)	-	(34)
Effect of changes in foreign exchange rates		(674)		(674)
Balance at December 31, 2017	\$	578,567	200,089	778,656
Balance at January 1, 2016	\$	731,378	23,451	754,829
Effect of changes in consolidated entities		(102,715)	(22,364)	(125,079)
Impairment loss recognized		1,431	198,684	200,115
Written off unrecoverable amount		(1,988)	-	(1,988)
Reclassification		856	(856)	-
Effect of changes in foreign exchange rates		(6,135)		(6,135)
Balance at December 31, 2016	\$	622,827	198,915	821,742

The Group assesses the impairment losses of the notes receivables, accounts receivables, accounts receivables-related parties, other current assets-other receivables and other receivables-related parties both individually and collectively. The Group evaluated the historical trends, recovery terms and the losses of the default possibility of the receivables; and the management of the Group accrued the allowance for doubtful accounts according to current economic condition and credit. Impairment loss recognized for individually assessed is the difference between the carrying amount and the present value of estimated future cash flows. The Group does not hold any collateral for the collectible amounts.

Notes to the Consolidated Financial Statements

As of December 31, 2017 and 2016, the factored accounts receivable that conformed to the derecognition criteria were as follows:

Unit: USD in thousands

December 31, 2017					
Factored amount \$ 3,251,055	Factoring credit limit 6,077,003	Advance amount 3,105,943	Collateral 691,000	Important derecognition clause Without recourse	Derecognized amount 3,151,082
December 31, 2016					
Factored amount \$ 2,972,929	Factoring credit limit 3,003,054	Advance amount 2,585,339	Collateral 1,321,000	Important derecognition clause Without recourse	Derecognized amount 2,656,909

The abovementioned factorings of accounts receivable to banks are recognized when the ownership and the significant risks of the factored accounts receivable are transferred. As of December 31, 2017 and 2016, included among the factored accounts receivable were accounts receivable of \$1,347,309 and \$2,310,208 respectively, which were yet to be factored by banks since the ownership and the significant risks were not transferred, therefore, they were included in "Other current assets" in the accompanying balance sheets.

For the years ended December 31, 2017 and 2016, the average annual interest rates on factored accounts receivable were 1.38%~2.96% to and 1.10%~2.28%, respectively.

As of December 31, 2017 and 2016, the notes and accounts receivable were not pledged.

(d) Inventories

	De	ecember 31,	December 31,
		2017	2016
Raw materials	\$	34,875,628	25,107,842
Work in progress		4,133,704	6,156,413
Finished goods		41,300,500	23,709,456
Inventory in transit		11,930,790	10,242,568
	\$	92,240,622	65,216,279

Notes to the Consolidated Financial Statements

For the years ended December 31, 2017 and 2016, the details of cost of sales were as follows:

		2017	2016
Cost of goods sold	\$	799,235,094	620,943,306
Loss on valuation of inventories and obsolescence and scrap loss		4,435,042	6,515,136
Gain on physical inventory		(20,587)	(12,161)
Gain from sale of scraps		(143,089)	(148,665)
Unallocated manufacturing overhead	_	935,160	966,098
	\$	804,441,620	628,263,714

For the year ended December 31, 2017 and 2016, the inventories were not pledged.

(e) Equity-accounted investees

As of December 31, 2017 and 2016, the components of investments accounted for using the equity method were as follows:

	December 31,	December 31,
	2017	2016
Associates	\$ <u>6,120,725</u>	5,928,289

(i) As of December 31, 2017 and 2016, the fair value of investments in associates of the Group for which there are public price quotations were as follows:

	December	31, 2017	December	r 31, 2016
	Book value	Fair value	Book value	Fair value
WNC	\$ 3,543,154	7,742,970	3,314,100	7,589,747
AOI	-	-	134,598	151,915
WITS	275,015	346,180	265,640	282,327
Formosa Prosonic Industries Berhad	421,313	876,216	369,459	433,429
	\$ <u>4,239,482</u>	8,965,366	4,083,797	8,457,418

Notes to the Consolidated Financial Statements

(ii) For the years ended December 31, 2017 and 2016, the recognized share of profits and other comprehensive income of associates were as follows:

	2017	2016
Attributable to the Group:	 	_
Net profit (loss)	\$ 307,854	(70,420)
Other comprehensive income	 (84,862)	(150,702)
Comprehensive income	\$ 222,992	(221,122)

(iii) The financial information for associates was as follows (before being adjusted to the Group's proportionate share):

	December 31, 2017	December 31, 2016	
Total assets	\$ <u>47,045,787</u>	49,744,657	
Total liabilities	\$ <u>24,326,511</u>	27,425,778	
	2017	2016	
Revenue	\$71,658,034	71,642,952	
Profit	\$ <u>1,551,006</u>	1,060,319	

(iv) Collateral

As of December 31, 2017 and 2016 the investments in aforementioned equity-accounted investees were not pledged as collateral.

(f) Losing control of subsidiary

The Group did not take part in the issuance of common stock for cash of JLH at the first quarter of 2016. Therefore, the Group's ownership percentage was reduced to lower than 50%, and the Group lost its control over JLH. JLH and its subsidiary, JLKS, were not included in the consolidated entities starting from March 11, 2016. There were no differences between the disposal amount and the book value.

Notes to the Consolidated Financial Statements

(g) Property, plant and equipment

The cost and accumulated depreciation of the property, plant and equipment of the Group for the years ended December 31, 2017 and 2016, were as follows:

	_	Land	Building and improvements	Machinery and equipment	Molding equipment	Research and development equipment	Office equipment	Other equipment	Total
Cost or deemed cost:									
Balance at January 1, 2017	\$	3,391,533	26,574,456	20,555,338	13,038,059	2,653,969	2,348,043	9,572,190	78,133,588

(Note): The reclassifications are mainly transferring from other non-current assets-advance payment for equipment and other assets and reclassifying to expense, respectively.

During the years ended December 31, 2017 and 2016, the Group disposed the building and improvements and equipments. The amounts of the proceeds of the above-mentioned assets are \$118,694 and \$452,293, the book values are \$199,362 and \$835,842, respectively, and resulting in the loss on disposal of property, plant and equipment, \$80,668 and \$383,549, accounted for under other gains and losses.

Please refer to note 8 for the detail of the property, plant and equipment pledged as collateral as of December 31, 2017 and 2016.

Notes to the Consolidated Financial Statements

(Note 1): The Group acquired the goodwill and other intangible assets arising from obtaining control over JLH, and the disposal of the above-mentioned assets in 2016. Please refer to Note 6(f) for details regarding losing control over subsidiary.

(Note 2): Reclassifications are mainly transferring to property, plant and equipment and expense.

Notes to the Consolidated Financial Statements

(i) Amortization

For the years ended December 31, 2017 and 2016, the amortizations of intangible assets recognized in comprehensive income were as follows:

		2017	2016
Cost of sales	\$	10,889	8,044
Operating expense	_	304,320	384,063
	\$	315,209	392,107

- (ii) Impairment testing for cash-generating units containing goodwill
 - 1) Goodwill has been allocated to the operating units for the Group's impairment testing purpose. The units are the minimum level for the Group to goodwill, and its level is not higher then Group's operating segments.

The carrying amounts of goodwill were as follows:

	Dec	cember 31, 2017	December 31, 2016
Developing and manufacturing services cash-			
generating units	\$	561,485	561,485

2) The recoverable amount of developing and manufacturing services cash generating units is in the basis of the value-in-use. The value-in-use is determined by the discounted future cash flow generated in assumption of using the units continuously. The key assumption used in the calculation of the value-in-use containing goodwill were as follows:

	December 31, 2017	December 31, 2016	
Revenue growth rate	20 %	8 %	
After-tax discount rate	5.68 %	7.62 %	

The value of key assumptions represents the future trending assessment which the management concerns for its industry. Both external and internal history information is its concern. There was no impairment as of December 31, 2017 and 2016.

(iii) Collateral

As of December 31, 2017 and 2016, the intangible assets were not pledged as collateral.

Notes to the Consolidated Financial Statements

(iii) Breach of covenant

According to the Group's credit loan facility agreement with the banks, during the credit term, the Group is committed to maintain the financial ratios. If a breach of covenant occurs, the Group's credit facility is immediately restricted. And without the consent of authorized banks, the credit facility is no longer available for the Group. The Group was in compliance with the above financial covenants as of December 31, 2017 and 2016.

- (iv) The interest expense for long-term and short-term loans for the year end December 31, 2017 and 2016 were disclosed in note 6(r).
- (v) For the collateral for bank loans, please refer to note 8.

(k) Provisions

(i) Provisions for warranty

	2017	2016
Balance at January 1	\$ 2,140,679	2,084,500
Provision made	1,752,063	1,947,384
Provision used	(1,950,111)	(1,858,786)
Effect of changes in foreign exchange rates	 (2,045)	(32,419)
Balance at December 31	\$ 1,940,586	2,140,679

The provision of warranty mainly relates to the selling of electronic products. The provision for warranties represents the estimate basing on historical warranty trends of business, the return of damage products and the warranty term. The Group estimates that the warranty usually occurs in three to six months after sales.

Notes to the Consolidated Financial Statements

(ii) Provision of sales return and allowance

	 2017	2016
Balance at January 1	\$ 4,918,511	3,307,116
Accrual	789,915	5,096,813
Payment	 (1,810,788)	(3,485,418)
Balance at December 31	\$ 3,897,638	4,918,511

(l) Operating leases

(i) Lessee

Rentals payable of non-cancellable operating lease were as follows:

	December 31, 2017		December 31, 2016
Less than one year	\$	523,802	424,330
Between one and five years		1,091,656	933,351
More than five years		144,825	46,128
	\$	1,760,283	1,403,809

The Group leases land, a number of offices, warehouse and factory facilities under operating leases. The leases typically run for a period of 1 to 13 years.

For the years ended December 31, 2017 and 2016, expenses recognized in profit or loss in respect of operating leases, were \$974,072 and \$1,048,899, respectively.

(ii) Lessor

The Group leases a number of office, warehouse and factory facilities under operating leases. The leases typically run for a period of 1 year. For the years ended December 31, 2017 and 2016 lease income recognized in profit or loss, were \$98,366 and \$124,655, respectively. The future minimum income under non-cancellable lease are as follows:

	December 31, 		
Less than one year	\$ 1,452	41,457	
Between one and five years	 330		
	\$ 1,782	41,457	

Notes to the Consolidated Financial Statements

(m) Employee benefits

(i) Defined benefit plans

The movements in the present value of the defined benefit obligations and net defined benefit assets and liabilities were as follows:

	De	cember 31, 2017	December 31, 2016
Present value of defined benefit obligations	\$	6,821	10,039
Fair value of plan assets		(7,951)	(10,246)
		(1,130)	(207)
The effect of limiting net defined benefit assets to the asset ceiling			
Net defined benefit assets (accounted for under "Other non-current assets")	\$	(1,130)	(207)
	De	cember 31, 2017	December 31, 2016

Present value of defined benefit obligations Fair value of plan assets		2017	2016
· ·		2017 2,010,098	2016 1,909,667
· ·		2017 2,010,098 (918,855)	2016 1,909,667 (906,219)

The domestic entities of the Group make defined benefit plans contributions to the pension fund account to Bank of Taiwan and Taipei Fubon commercial bank that provide pension for employees upon retirement. Plans (covered by the Labor Standards Law) entitle a retired employee to receive retirement benefits based on years or service and average monthly salary for the six months prior to retirement.

The foreign entities of the Group, WPH and WJP, adopted defined benefit plans.

1) Composition of plan assets

The domestic entities of the Group allocate pension funds in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund, and such funds are managed by the Bureau of Labor Funds, Ministry of Labor. With regard to the utilization of the funds, minimum earnings shall be no less than the earnings attainable from two-year time deposits with interest rates offered by local banks.

The foreign entities of the Group, make defined benefit plans contributions to the pension fund in accordance with the local regulations.

Notes to the Consolidated Financial Statements

The Group's labor pension reserve account balance amounted to \$926,806 and \$916,465 as of December 31, 2017 and 2016. The utilization of the labor pension fund assets of the domestic entities of the Group includes the asset allocation and yield of the fund. Please refer to the website of the Bureau of Labor Funds, Ministry of Labor.

2) The movements in the present value of the defined benefit obligations

The movements in the present value of the defined benefit obligations were as follows:

	2017	2016
Balance at January 1	\$ 1,919,706	1,813,307
Current service cost and interests	56,130	56,521
Benefit paid by the plan	(59,872)	(115,357)
Benefit paid by the Company	(4,796)	(4,880)
Net remeasurements of defined benefit liability		
 Actuarial losses arising from changes in financial assumptions 	127,319	116,983
-Experience adjustments	(62,628)	44,921
Effect of employee transfer	43,765	-
Prior service cost	-	9,795
Effect of change in foreign exchange rates	 (2,705)	(1,584)
Balance at December 31	\$ 2,016,919	1,919,706

3) The movements in the fair value of the plan assets

The movements in the fair value of an employee benefit plan were as follows:

		2017	2016
Fair value of plan assets at January 1	\$	916,465	758,552
Contribution from plan participants		62,258	267,418
Benefit paid by the plan		(59,872)	(115,357)
Expected return on plan assets		12,595	14,202
Net remeasurements of defined benefit liabil (asset)	ity		
- Return on plan assets		(4,640)	(8,350)
Balance at December 31	\$	926,806	916,465

4) The movements in effect of limiting net defined benefit assets to the asset ceiling

As of December 31, 2017 and 2016, there is no change in effect of limiting net defined benefit assets to the asset ceiling.

Notes to the Consolidated Financial Statements

5) Expenses recognized in profit or loss

The expenses recognized in profit or loss for the years ended December 31, 2017 and 2016, were as follow:

		2017	2016
Current service cost	\$	29,120	21,978
Net interest on the net defined benefit liability		27,010	34,543
Net remeasurements of defined benefit liability (asset)			
-Return on plan assets		(4,640)	(8,350)
Actual return on plan assets		(7,955)	(5,852)
Prior service cost			9,795
	\$	43,535	52,114
		2017	2016
Cost of sales	\$	7,362	7,116
Selling expenses		8,520	17,799
Administrative expenses		6,133	5,966
Research and development expenses		21,520	21,233
	\$	43,535	52,114

6) The remeasurements of the net defined benefit liability recognized in other comprehensive income

As of December 31, 2017 and 2016, the Group's remeasurements of the net defined benefit liability recognized in other comprehensive income were as follows:

		2016	
Balance as of January 1	\$	308,684	138,430
Recognized during the year		69,331	170,254
Balance as of December 31	\$	378,015	308,684

7) Actuarial assumptions

The Group's principal actuarial assumptions at the reporting date are as follows:

	December 31, 2017	December 31, 2016
Discount rate	1.375%~6.0%	1.375%~5.700%
Future salary increases	1.350%~5.0%	0.900%~5%

Notes to the Consolidated Financial Statements

The expected allocation payment to be made by the Group to the defined benefit plans for the one-year period after December 31, 2017 is \$39,222. The weighted average lifetime of the defined benefits plans is 15.00~18.26 years.

8) Sensitivity analysis

The changes in main actuarial assumptions might have an impact on the present value of the defined benefit obligation:

	Effec	Effects to the defined benefit obligation			
	Incr	ease 0.25%	Decrease 0.25%		
December 31, 2017					
Discount rate	\$	(60,410)	62,957		
Future salary increases		60,972	(58,838)		
December 31, 2016					
Discount rate		(60,827)	63,492		
Future salary increases		61,410	(59,159)		

There is no change in other assumptions when performing the above-mentioned sensitivity analysis. In practice, assumptions may be interactive with each other. The method used on sensitivity analysis is consistent with the calculation on the net pension liabilities.

The method and assumptions used on current sensitivity analysis is the same as those of the prior year.

(ii) Defined contribution plans

The domestic entities of the Group set aside 6% of the contribution rate of the employee's monthly wages to the Labor Pension personal account of the Bureau of the Labor Insurance in accordance with the provisions of the Labor Pension Act. The domestic Group entities set aside a fixed amount to the Bureau of the Labor Insurance without the payment of additional legal or constructive obligations.

The foreign entities of the Group are in accordance with local regulations.

The Group set aside \$436,189 and \$424,647 of the pension costs to the Bureau of Labor Insurance for the years ended December 31, 2017 and 2016, respectively.

Notes to the Consolidated Financial Statements

(n) Income Taxes

(i) Income tax expense

The components of income tax expense for the years ended December 31, 2017 and 2016, were as follows:

	2017	2016
Current tax expense		
Current period	\$ 1,566,967	1,848,895
Prior period adjustments	 339,684	547,786
	 1,906,651	2,396,681

4) The Company's tax returns for the years through 2015 were examined and approved by the Taiwan National Tax Administration.

Notes to the Consolidated Financial Statements

5) Integrated income tax information

As of December 31, 2017 and 2016, the Company's integrated income tax information was as follows:

	December 31, 2017	December 31, 2016
Unappropriated earnings, from January 1, 1998	Note	\$ 14,049,157
Balance of deductible tax account	Note	\$ 3,867,067
Creditable ratio for earnings distribution to	2017(estimated)	2016(actual)
domestic stockholders	Note	31.99%

The Company's income tax and imputation tax credit are in compliance with Decree No. 10204562810 issued by the Ministry of Finance on October 17, 2013. Starting from January 1, 2015, the deductible tax amount of an individual shareholder residing in the territory of R.O.C. is calculated by 50% of its original tax deduction ratio. However, in case that the gross dividends or the gross earnings received by the shareholder residing outside the territory of R.O.C. contain any income subject to a 10% surcharge of a profit-seeking income tax which was actually paid under the provisions of Article 66-9 hereof, half of the amount of the surcharged profit-seeking income tax may be offset against the amount of income tax which should be withheld from the payment of the net amount of such dividends or earnings.

Note: According to the amendments to the "Income Tax Act" enacted by the office of the President of the Republic of China (Taiwan) on February 7, 2018, effective January 1, 2018, companies will no longer be required to establish, record, calculate, and distribute their ICA due to the abolishment of the imputation tax system.

6) Appeals for administrative remedies

- a) For 2011, the tax authorities assessed the Company for an additional income tax of \$409,169, as the tax authorities reduced some of the Company's amortization expenses and rejected some of the Company's investments credits. However, the Company disagreed with the authorities' assessment and filed an appeal to the tax authorities for administrative remedies of its 2011 income tax returns. The tax authorities adjudicated to return income tax for \$6,650 in March, 2016. As of December 31, 2017, the appeal of aforementioned returns was still in progress.
- b) In 2012 and 2013, the Company disagreed with the assessment made by the tax authorities and filed an appeal for reassessment, which have been granted by the court. The said cases have been closed in December and September, 2017. Therefore, the final amount decided by the tax authorities were recognized as current tax expense.

Notes to the Consolidated Financial Statements

c) For 2014, the tax authorities assessed that the Company for an additional income tax of \$509,270, after reducing some of the Company's amortization expense and disclaiming some of the Company's investment credits. However, the Company disagreed with the authorities' assessment and filed an appeal to the tax authorities for administrative remedies of its 2014 income tax returns. As of Decmber 31, 2017, the appeal of aforementioned returns was still in progress.

(o) Capital and Other Equities

As of December 31, 2017 and 2016, the Company's authorized common stock consisted of 4,000,000,000 and 4,000,000,000 shares, respectively, with a par value of \$10 per share, of which 2,748,688,000 shares and 2,650,316,000 shares, respectively, were issued and outstanding.

(i) Capital

On March 20, 2017, the Company's Board of Directors approved a resolution to distribute the employee remuneration amounting to \$615,440, consisting of 23,490,000 shares. All related registration procedures had been completed.

On June 14, 2017, the Company's shareholders approved a resolution to distribute the retained earnings amounting to \$760,542, consisting of 76,054,000 shares, wherein, 30 shares per thousand shares were to be distributed as stock dividend. However, the Company repurchased its treasury stock to be transferred to its employees. The stock distribution had been adjusted to 29.60839 shares per thousand shares accordingly. The related registration procedures had been completed.

The Company's Board of Directors approved a resolution to retire restricted employee shares of 1,173,000 shares, with a face value of \$11,727 per share. The recognition date for capital reduction was November 10, 2017, and all related registration procedures had been completed.

On March 25, 2016, the Company's Board of Directors approved a resolution to distribute the employee remuneration amounting to \$496,015, consisting of 24,020,000 shares. All related registration procedures had been completed.

On June 15, 2016, the Company's shareholders approve a resolution to distribute the retained earnings with the amounts of \$726,336, consisting of 72,634,000 shares, wherein, 30 shares per thousand shares are to be distributed as stock dividend. However, the Company repurchased its treasury stock and transferred it's treasury stock to employees. The distribution had been changed to 29.91332 shares per thousand shares accordingly. The dividend distribution date was set on August 15, 2016, and all related registration procedures had been completed.

The Company's Board of Directors approved a resolution to retire the restricted employee shares amounting to 1,820,000 shares, with a face value of \$18,197. The recognition date for capital reduction was November 11, 2016, and all related registration procedures had been completed.

Notes to the Consolidated Financial Statements

(ii) Treasury Stock

- 1) The Company repurchased its own common stock as treasury shares in order to motivate and improve the operating performance of its employees in accordance with the requirements under section 28(2) of the securities and Exchange Act. As of December 31, 2017 and 2016, the amounts of treasury stock repurchased were 164,362,000 shares and 164,362,000 shares, respectively, the stock transferred to employees were 83,668,000 shares and 40,473,000 shares, respectively. Therefore, the shares of treasury stock the Company hold as of December 31, 2017 and 2016 were 80,694,000 shares and 123,889,000 shares, respectively.
- 2) Pursuant to the Securities and Exchange Act, the number of treasury shares purchased cannot exceed 10 % of the number of shares issued. The total purchase cost cannot exceed the sum of retained earnings, paid-in capital in excess of par value, and realized capital surplus. The shares purchased for the purpose of transferring to employees shall be transferred within three years from the date of share repurchase. Those that were not transferred within the said limit shall be deemed as not issued by the Company and it should be cancelled. Furthermore, treasury stock cannot be pledged for debts, and treasury stock does not carry any shareholder rights until it is transferred.

(iii) Capital surplus

Balances of capital surplus at the reporting date were as follows:

December 31

Notes to the Consolidated Financial Statements

In accordance with Companies Act, realized capital surplus can only be reclassified as share capital or be distributed as cash dividends after offsetting against losses. The aforementioned capital surplus includes share premiums and donation gains. In accordance with the Securities Offering and Issuance Guidelines, the amount of capital surplus to be reclassified under share capital shall not exceed 10 percent of the actual share capital amount.

(iv) Unappropriated earnings

The Company's Articles of Incorporation provide that, when allocating the net profit for each fiscal year, the Company shall first offset its losses in previous years and then set aside the legal reserve at 10% of net profit until the accumulated legal reserve equals the Company's paid-in capital; and also set aside special capital reserve in accordance with relevant regulations or as requested by the authorities. Any balance left over and the beginning balance of retaining earnings shall be distributed by way of cash or stock dividends; and the ratio for all dividends shall exceed 10% of the remaining earnings. The Company's appropriations of earnings are approved in the meeting of the Board of Directors and presented for approval in the Company's shareholders' meeting.

1) Legal reserve

According to the ROC Company Act, a company shall first set aside 10% of its net profit as legal reserve. When the balance of such legal reserve reaches an amount that is equal to the paid-in capital, the appropriation to legal reserve is discontinued. When a company incurs no loss, it may, in pursuant to a resolution to be adopted by a shareholders' meeting, distribute its legal reserve by issuing new shares or by cash. Only 10% of legal reserve which exceeds 25% of the paid-in capital may be distributed.

2) Special reserve

In accordance with Permit No. 1010012865 as issued by the Financial Supervisory Commission on April 6, 2012, a special reserve equal to the contra account of other shareholders' equity is appropriated from current and prior period earnings. When the debit balance of any of the contra accounts in the shareholders' equity is reversed, the related special reserve can be reversed. The subsequent reversals of the contra accounts in shareholders' equity shall qualify for additional distributions.

3) Dividends

As the Group is a technology and capital-intensive enterprise and is in its growth phase, it has adopted a more prudent approach in the appropriation of its remaining earnings as its dividend policy, in order to sustain its long-term capital needs and thereby maintain continuous development and steady growth. Under this approach, the distribution of stock dividend is not lower than ten percent of total distribution of dividends.

Notes to the Consolidated Financial Statements

4) Earnings Distribution

The appropriation of 2016 and 2015 earnings that was approved at the shareholders' meeting on June 14, 2017 and June 15, 2016, respectively were as follow:

		2016	2015	
Cash dividends	\$	3,042,169	2,905,344	
Stock dividends	_	760,542	726,336	
	\$_	3,802,711	3,631,680	

The aforementioned distribution of common stock was no difference between the actual amounts and the amounts approved at the shareholders' meeting in 2016 and 2015. For further information, please refer to Market Observation Post System.

5) Other equity (net of tax)

(p) Share-based payment transactions

- (i) The Company-restricted employee shares of stock
 - 1) During their meeting on June 21, 2012, the Company's stockholders approved a resolution to issue 62,795,000 new restricted employee shares of stock to those full-time employees who conformed to the Company's certain requirements. These restricted employee shares of stock have been registered and approved by the ROC Securities and Futures Bureau of Financial Supervisory Commission. On October 30, 2012, the board of directors approved a resolution to issue 62,795,000 restricted employee shares of stock to their employees.

Notes to the Consolidated Financial Statements

These employees are entitled to purchase the restricted shares of stock at the price of \$0, with the condition that these employees will continue to provide service to the Company for at least 2 years, 3 years and 4 years (from the grant date) and qualify with the Company's certain requirements. Based on the annual achievement situation of the Company's certain requirements, the restricted employee shares of stock are vested from 0% to 33.33% annually. The restricted shares of stock for employees are kept by a trust, which is appointed by the Company before they are vested. These shares shall not be sold, pledged, transferred, gifted or by any other means of disposal to third parties during the custody period. The voting rights of these shareholders are executed by the custodian, and the custodian will act accordingly based on law and regulations.

2) The number of the restricted employee shares of stock (in thousands) for the years ended December 31, 2017 and 2016, were as follows:

	 2017	2016	
Outstanding at the beginning of year	\$ 18,776	39,756	
Vested	(17,637)	(19,201)	
Retired	 (1,139)	(1,779)	
Outstanding at the end of year	\$ <u> </u>	18,776	

The Company adopted the Black-Sholes model to calculate the fair value of the restricted employee shares of stock at the grant date. The assumptions adopted in this valuation model were as follows:

Current market price	26.85
Exercise price	0
Expected life	4 years
Expected volatility	24.94%~28.92%
Risk-free interest rate	0.4620%

- 4) For the years ended December 31, 2017 and 2016, the accrued compensation cost for the restricted employee shares of stock amounted to \$427,935 and \$170,582, respectively, were accounted for under cost of sales and operating expenses.
- 5) As the third vesting period (the fourth year from the grant date) ended in August 2017, the Company decided to retrieve its restricted employee shares for employees who failed to qualify certain requirements, as well as its cash and stock dividend generated from the above mentioned restricted employee shares. Therefore, the retrieved cash dividend amounted to \$1,349 in August 2017, and the employee shares of 1,139,000 and the stock dividend of 34,000 were retrieved in the fourth quarter of 2017.

As the second vesting period (the third year from the grant date) ended in August 2016, the Company retired restricted employee shares for the employees who failed to qualify with the Compnay's certain requirements, as well as the cash and stock dividends generated from the above-mentioned restricted employee shares. Therefore, the retrieved cash dividend amounted to \$1,628 in August 2016, and the employee shares of 1,779,000 and the stock dividend of 41,000 were retrieved in the fourth quarter of 2016.

Notes to the Consolidated Financial Statements

(ii) WYHQ-Employee stock option

On June 20, 2017 and January 26, 2015, the board of directors of WYHQ approved a resolution to issue the employee stock options of 8,000 and 1,000 thousand units, respectively. The employee stock options were issued on June 20, 2017 and February 15, 2015 in accordance with the resolution of the board of directors. WYHQ will issue new shares to fulfill its obligations.

As of December 31, 2017, the information of WYHQ's employee stock options are as follows:

Categories	Date off resolution by Board of Director	Issue date	Existing period	Shares issued	Price of per share
The plan at employee stock option 2015	January 26, 2015	Feburary 15, 2015	5 years	1,000,000 \$	17.40
The plan at employee stock option 2017	June 20, 2017	June 20, 2017	3 years	8 000 000	25 00

The exercise tatio of the employee stock options over the grant period are as follows:

2015 employee stock optionas A		2017 employee stock optionas A		
Grant period	Exercise ratio (cumulative)	Grant period	Exercise ratio (cumulative)	
February 15, 2017	1/3	August 1, 2017	1/2	
February 15, 2018	2/3	February 1, 2019	2/2	
February 15, 2019	3/3			

WYHQ adopted the Black-Scholes model to evaluate the fair value of the stock option at the grant date. The assumptions adopted in this valuation model were as follows:

	2015 employee stock optionas A	2017 employee stock optionas A
Fair value at grant date (dollars)	\$ 7.19	4.54 / 6.24
Share price at grant date (dollars)	25.98	25.23
Exercise price (dollars)	17.40	25.00
Expected volatility	38.87 %	34.99 % / 39.93 %
Expected life	2 years	1.56 years / 2.31 years
Risk-free interest rate	0.60 %	0.5053 % / 0.5936 %

The shares (in thousands) of the employee stock options were as follows:

	2017		2016		
	Weighted-average exercise price (expressed in dollars)	Number of options (in thousands)	Weighted-average exercise price (expressed in dollars)	Number of options (in thousands)	
Outstanding balance at the beginning of the year	\$ 10.64	856	14.90	910	
Options granted	25.00	8,000	-	-	
Options forfeited	-	(335)	-	(54)	
Options exereised	20.98	(3,918)	-	-	
Options expired			-		
Outstanding balance at the end of the year	20.28	4,603	10.64	856	
Exercisable munber as the end of the year		282			

Notes to the Consolidated Financial Statements

1) The outstanding employee stock options were as follows:

	Decer	nber 31, 2017	December 31, 2016
Range at exercise price (TWD)	\$	21.7 ~10	10.64
Weighed-average at remaining duration (years)		2.17	1.96

2) The compensation cost of employee stock option

For the years ended December 31, 2017 and 2016, the compensation cost of employee stock options amounted to \$15,114 and \$2,597, respectively, which were accounted for under operating expenses.

Employee's and director's compensation

According to the Company's Article of Incorporation, if the Company has profit (which means income before tax excluding the amounts of employees' and directors' compensation), it shall be contributed by the following rules. However, if the amount Company have accumulated deficit, it shall reserve the amount for offsetting deficit.

No less than 5% of profit as employee compensation. The Company may distributed in the form of shares or in cash, and the qualifications of employees, including the employees of subsidiaries of the Company, depends on certain specific requirements determined by the Board of Directors.

Notes to the Consolidated Financial Statements

(ii) No more than 1% of profit as the compensation in cash to the Directors

The Company's estimated of employee and director's compensation were as follows:

		2017	2016
Employee's compensation	\$	711,308	615,440
Directors' compensation	_	46,946	40,619
	\$_	758,254	656,059

The amounts are calculated by the net profit before tax excluding employee and directors' compensation, of each period multiplied by the percentage of employee and directors' compensation as specified in the Company's Article of Incorporation. The amounts are accounted for under cost of sales and operating expense in 2017 and 2016. The numbers of shares distributed in 2017 and 2016, were calculated basing on the closing price of the Company, one day before the date of the meeting of Board of Directors on March 13, 2018 and March 20, 2017, respectively. Related information would be available at the Market Observation Post System website. The amounts, as stated in the consolidated financial statements, are identical to those of the actual distributions for 2017 and 2016.

The differences between the estimated amounts in the financial statements and the actual amounts approved by the Board of directors, if any, shall be accounted for as a change in accounting estimate and recognized in the next year.

(t) Financial instruments

- (i) Credit risk
 - 1) Exposure to credit risk

The carrying amount of financial assets represents the maximum amount exposed to credit risk.

2) Concentration of credit risk

The Group's majority customers are in high-tech industries. To reduce concentration of credit risk, the Group evaluates customers' financial positions periodically and requires customers to provide collateral or promissory notes, if necessary. In addition, the Group evaluates the aging of accounts receivable periodically, accrue allowance for doubtful accounts and purchasing insurance contracts of accounts receivable, if necessary. Historically, bad debt expense has always been under management's expectation. As of December 31, 2017 and 2016, 67% and 60% of the Group's accounts receivable were concentrated on 5 and 4 specific customers, respectively. Accordingly, concentrations of credit risk exist.

Notes to the Consolidated Financial Statements

Notes to the Consolidated Financial Statements

2) Currency risk sensitivity analysis

The Group's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, accounts receivable, other receivables, loans, accounts payable and other payables that are denominated in foreign currency.

A Strengthening (weakening) 5 % of appreciation (depreciation) of the TWD against the USD and the CNY as of December 31, 2017 and 2016, would increase (decrease) the net profit after tax by \$2,863,134 and \$1,660,970, respectively. The analysis assumes that all other variables remain constant.

(iv) Interest analysis

The interest risk for financial liabilities of the Group would be explained in liquidity risk management stated in this note.

The following sensitivity analysis is based on the risk exposure to interest rates on non-derivative financial instruments on the reporting date. For variable rate instruments, the sensitivity analysis assumes the variable rate liabilities are outstanding for the whole year on the reporting date.

If the interest rate increase / decrease by 25 basis points, the Group's net profit after tax would decrease/increase by \$45,434 and \$74,010 for the years ended December 31, 2017 and 2016, with all other variable factors that remain constant. This is mainly due to the Group's borrowings in floating variable rate.

(v) Fair value information

1) Categories and fair values of financial instruments

The Company strives to use market observable inputs when measuring assets and liabilities. Different levels of the fair value hierarchy to be used in determining the fair value of financial instruments are as follows:

- a) Level 1: quoted prices (unadjusted) in active markets for identifiable assets or liabilities.
- b) Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (ie as prices) or indirectly (ie derived from prices).

Notes to the Consolidated Financial Statements

c) Level 3: inputs for the assets or liability that are not based on observable market data.

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It shall not include fair value information of the financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of the fair value and investments in equity instruments which do not have any quoted price in an active market in which the fair value cannot be reasonably measured.

	December 31, 2017

2) Valuation techniques and assumptions used in fair value determination

The Group uses the following methods in determining the fair value of its financial assets and liabilities:

- a) The fair value of investments in securities of listed companies, with standard terms and conditions which are traded in active markets, is based on quoted market price.
- b) The derivative instruments were measured by models which are widely accepted by users from the market. The forward contracts would usually measure by forward exchange rates.
- c) For all other financial assets and financial liabilities, the fair value is determined using a discounted cash flow analysis based on expected future cash flows.
- 3) Transfer from Level 1 to Level 2: none

Notes to the Consolidated Financial Statements

4) Changes between Level 3: none

The Group's beneficial and adverse change refers to the fluctuation of the fair value, and the fair value is calculated by parameters at any unobservable level and valuation technique. The above table only reflects the effect which results from the single parameter changes, and does not consider the correlation and variability between parameters, even if there is more than one parameter that would affect the fair value.

(vi) Offsetting financial assets and financial liabilities

The Group has financial instruments transactions applicable to the Section 42 of International Financial Reporting Standards No. 32 approved by the FSC which required for offsetting. Financial assets and liabilities relating those transactions are recognized in the net amount of the balance sheets.

The following tables present the aforesaid offsetting financial assets and financial liabilities.

		Decem	ber 31, 2017

(u) Financial risk management

- (i) By using financial instruments, the Group is exposed to risks as below:
 - 1) Credit risk
 - 2) Liquidity risk
 - 3) Market risk

Detailed information about exposure risk arising from the aforementioned risks was listed below. The Group's objective, policies and processes for managing risks and methods used to measure the risk arising from financial instruments.

Notes to the Consolidated Financial Statements

(ii) Risk management framework

The Group's finance management department provides business services for the overall internal department. It sets the objectives, policies and processes for managing the risk and the methods used to measure the risk arising from both the domestic and international financial market operations.

The Group minimizes the risk exposure through derivative financial instruments. The Shareholder's meeting regulated the use of derivative financial instruments in accordance with the Group's policy about risks arising from financial instruments to which the Group is exposed to. The Group's internal auditors continue with the review of the amount of the risk exposure in accordance with the Group's policy and the risk management policies and procedures. Derivative contracts of the Group with several financial institutions were intended to manage foreign currency exchange and interest rate fluctuation risks.

The chief of finance management department arranges a meeting to review the strategy and performance, then reports the results to Chief Financial Officer and Chairman periodically.

(iii) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to financial instruments fails to meet its contractual obligations that arise principally from the Group's notes and accounts receivable and investment.

1) Notes and accounts receivable

The Group's credit policy is transacting with creditworthy customers, and obtains collateral to mitigate risks arising from financial loss due to default. The Group will transact with corporations of credit ratings equivalent to investment grade and such ratings are provided by independent rating agencies. Where it is not possible to obtain such information, the Group will assess the ratings based on other publicly available financial information and transactions records with its major customers. The Group continues to monitor the exposure to credit risk and counterparty credit rating, and evaluate the customers' credit rating and credit limit via automatic finance system to manage the credit exposure.

2) Investment

The credit risk exposure in the bank deposits, other financial instruments and equity instruments are measured and monitored by the Group's finance department. Since the Group's transactions resulted from the external parties with good credit standing and investment grade above financial institutions, publicly-traded stocks companies and non publicly-traded stocks companies, there are no incompliance issues and therefore no significant credit risk.

Notes to the Consolidated Financial Statements

3) Guarantee

According to the Group's policy, the Group can only provide guarantee to which is listed under the regulation. The Group didn't provide guarantees to any non-consolidated subsidiaries as of December 31, 2017 and 2016.

(iv) Liquidity risk

The Group maintains sufficient cash and cash equivalents so as to cope with its operations and mitigate the effects of fluctuations in cash flows. The Group's management supervises the bank loan facilities and ensures in compliance with the terms of the loan agreements.

The loan was an important source of liquidity for the Group. As of December 31, 2017 and 2016, the Group has unused credit facilities for short-term and long-term loans of \$94,788,653 and \$150,890,006, respectively.

(v) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

1) Currency risk

The Group is exposed to currency risk on sales, purchases and borrowings that are denominated in a currency other than the respective functional currencies of the Group's entities, the New Taiwan Dollar. The currencies used in these transactions are denominated in TWD, EUR, USD, JPY and CNY.

The foreign currency assets and liabilities might lead to the interest risk since the fluctuation of the market exchange rate influence the Group's future cash flow. The Group entering into forward and swap contracts are intended to manage the exchange rate risk due to the Group's current and future demand for foreign currency. The contract periods are decided in consideration of the Group's foreseeable assets and liabilities and expected cash flow. At the maturity date of the derivative contract, the Group will settle these contracts using the foreign currencies arising from the assets denominated in foreign currency.

2) Interest risk

The Group's short-term loans, long-term loans and advances from factoring of accounts receivable bear floating interest rates. The changes in effective rate along with the fluctuation of the market interest rate influence the Group's future cash flow. The Group reduces the interest risks by negotiating the loan interest rates frequently with banks.

Notes to the Consolidated Financial Statements

3) Other market price risk

The Group monitors the risk arising from its available-for-sale security instruments, which are held for monitoring cash flow requirements and unused capital. The management of the Group monitors the combination of equity securities and open-market funds in its investment portfolio based on cash flow requirements. Material investments within the portfolio are managed on an individual basis, and all buy-and-sell decisions are approved by the Board of directors.

(v) Capital management

The Group meets its objectives for managing capital to safeguard the capacity to continue to operate, and provide a return to the shareholders, also, to benefit other related parties, at the same time, to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the dividend payment to the shareholders, reduce the capital for redistribution to shareholders, issue new shares or sell assets to settle any liabilities. The Group uses the debt ratio to manage capital. This ratio uses the total debt to be divided by the total assets.

The Group's debt ratio as of December 31, 2017 and 2016, were as follows:

	December 31, 2017	December 31, 2016
Total liabilities	\$ 260,232,320	214,787,109
Total assets	\$ <u>326,653,382</u>	282,755,558
Debt ratio	80%	76%

As of December 31, 2017, the Group's capital management strategy is consistent with the prior year.

(b) Major litigation

Qualcomm Inc. filed a patent infringement lawsuit against the Company and other three ODM companies in the United States District Court - Southern District of California on May 17, 2017. The above three ODM companies and the Company also filed a counterclaim against Qualcomm Inc. on July 19, 2017. The case is still in legal proceedings with the assistance of attorney.

Notes to the Consolidated Financial Statements

(10) Losses Due to Major Disasters: None.

(11) Subsequent Events:

- (a) According to the amendments to the "Income Tax Act" enacted by the office of the President of the Republic of China (Taiwan) on February 7, 2018, an increase in the corporate income tax rate from 17% to 20% is applicable upon filing the corporate income tax return commencing FY 2018. This increase does not affect the amounts of the current or deferred income taxes recognized on December 31, 2017. However, it will increase the Group's current tax charge accordingly in the future. On the other hand, if the new tax rate is applied in calculating the taxable temporary differences and tax losses recognized on December 31, 2017, the deferred tax assets and deferred tax liabilities would increase by \$550,619 and \$609,798, respectively.
- (b) The appropriation of earnings for 2017 that was approved at the board of directors meeting on March 13, 2018 were as follows:

	 2017
Common stock dividends	
Cash dividends	\$ 3,208,199
Stock dividends	 802,050
Total	\$ 4,010,249

The appropriation of earnings for 2017 are to be presented for approval in the shareholders' meeting to be held in June 2018.

(c) On March 13, 2018, the Company's Board of Directors approved a resolution to issue Global depository shares ranging from 208,000,000 to 260,000,000 common shares. All related registration procedures had been completed.

(12) Other:

Total personnel, depreciation and amortization expenses categorized by function for the years ended December 31, 2017 and 2016 were as follows:

		2017			2016	
	Cost of sales	Operating expenses	Total	Cost of sales	Operating expenses	Total
Personnel expenses						
Salaries	17,035,078	10,793,388	27,828,466	13,705,128	9,998,975	23,704,103
Labor and health insurance	1,971,157	973,231	2,944,388	1,645,473	915,500	2,560,973
Pension	74,069	405,655	479,724	70,681	406,080	476,761
Others	4,101,804	691,440	4,793,244	1,561,656	586,167	2,147,823
Depreciation	6,228,223	1,364,357	7,592,580	5,695,887	1,961,527	7,657,414
Amortization	10,889	304,320	315,209	8,044	384,063	392,107

The Group had 82,955 and 83,278 employees, respectively, as of December 31, 2017 and 2016.

(Note 1) The total amount available for financing purposes shall not exceed 50% of the Company's net worth, which was audited or reviewed by Certified Public Accountant; and the total amount for short-term financing shall not exceed 40% Company's net worth.

1 for entities the Company has business transactions with

2 for entities with short-term financing needs

(1) For entities in which the Company, directly or indirectly, owned more than 50% of their shares, the amount available for financing shall not exceed 10% of net worth of the Company. (Note 3) Individual financing limit for entities the Company has business transactions with

(2) For entities in which the Company, directly or indirectly, owned more than 50% of their shares, the amount available for financing shall not exceed 40% and 5% of net worth of the borrower and the Company, respectively.

(3) For other borrowers, the amount available for financing shall not exceed 25% and 5% of net worth of the borrower and the Company, respectively.

(Note 4) For entities with short-term financing needs, the amount available for financing shall not exceed 10% of net worth of the Company

WISTRON COROPERATION AND ITS SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENT

(ote 5) Subsidiary - WAK

(1) The total amount available for financing purposes shall not exceed 50% of WAKS' net worth, which was audited or reviewed by Certified Public Accountant; and the total amount for short-term financing shall not exceed 40% of net worth of WAKS. However, for those subsidiaries in China in which the Company, directly or indirectly, owned 100% of their shares, the amount available for financing shall not exceed the Company's net worth, which is audited or reviewed by Certified Public Accountant, and for entities which are not located in Taiwan, the financing limits will be subject to the credit limit approved by State Administration of Foreign Exchange. (2) For those subsidiaries in China with short-term financing needs which the Company, directly or indirectly, owned 100% of their shares, the amount available for financing of each entity shall not exceed net worth, which was audited or reviewed by Certified Public Accountant, of the Company.

te 6) Subsidiary - WCH

(1) The total amount available for financing purposes shall not exceed 40% of WCH's net worth, which was audited by Certified Public Accountant; and for those foreign subsidiaries in which the Company, directly or indirectly, owned 100% of their shares, the amount available for financing shall not exceed the Company's net worth, which was audited or reviewed by Certified Public Accountant (2) For entities with short-term financing needs, the amount available for financing of each entity shall not exceed 10% of net worth of WCH. However, for those subsidiaries with short-term financing needs in which the Company, directly or indirectly, owned 100% of their shares, the amount available for financing of each entity shall not exceed the Company's net worth, which was audited or reviewed by Certified Public Accountant.

(Note 7) Subsidiary - WEHK

(1) The total amount available for financing purposes shall not exceed 50% of WEHK's net worth, which was audited or reviewed by Certified Public Accountant; and for entities with short-term financing needs, the amount available for financing shall not exceed 40% of WEHK's net worth, which was audited or reviewed by Certified Public Accountant

(2) Individual financing limit for entities WEHK has business transactions with

A. For entities in which WEHK, directly or indirectly, owned more than 50% of their shares, the amount available for financing shall not exceed 10% of net worth of WEHK.

B. For entities in which WEHK, directly or indirectly, owned more than 50% of their shares, the amount available for financing shall not exceed 40% and 5% of net worth of the borrower and WEHK, respectively.

C. For other borrowers, the amount available for financing shall not exceed 25% and 5% of net worth of the borrower and WEHK, respectively.

(3) For entities with short-term financing needs, the amount available for financing of each entity shall not exceed 10% net worth of WEHK.

8) Subsidiary - WSSG

(1) The total amount available for financing purposes shall not exceed 40% of WSSG's net worth, which was audited or reviewed by Certified Public Accountant, and for those foreign subsidiaries in which the Company, directly or indirectly, owned 100% of their shares, the amount available for financing shall not exceed the Company's net worth, which is audited or reviewed by Certified Public Accountant. (2) For the entities with short-term financing needs, the amount available for financing of each entity shall not exceed 10% of net worth of WSSG. However, for those foreign subsidiaries with short-term financing needs in which the Company, directly or indirectly, owned 100% of their shares, the amount available for financing shall not exceed the Company's net worth, which was audited or reviewed by Certified Public Accountant

(Note 9) Subsidiary - WCQ

(1) The total amount available for financing purposes shall not exceed 50% of WCQ's net worth, which was audited or reviewed by Certified Public Accountant; and the total amount for short-term financing shall not exceed 40% of net worth of WCQ. However, for those subsidiaries in China in which the Company, directly or indirectly, owned 100% of their shares, the amount available for financing shall not exceed the Company's net worth, which is audited or reviewed by Certified Public Accountant, and for entities which are not located in Taiwan, the financing limits will be subject to the credit limit approved by State Administration of Foreign Exchange (2) For those subsidiaries in China with short-term financing needs which the Company, directly or indirectly, owned 100% of their shares, the amount available for financing of each entity shall not exceed net worth, which was audited or reviewed by Certified Public Accountant, of the Company.

(Note 10) Subsidiary - AIIH

1) The total amount available for financing purposes shall not exceed 40% of AIHYs net worth, which was audited by Certified Public Accountant; and for those foreign subsidiaries in which the Company, directly or indirectly, owned 100% of their shares, the amount available for financing shall not exceed the Company's net worth, which was audited or reviewed by Certified Public Accountant (2) For entities with short-term financing needs, the amount available for financing of each entity shall not exceed 10% net worth of AIIH. However, to the subsidiaries which the Company, directly or indirectly, owned 100% of their shares, the amount available for financing shall not exceed the Company's net worth, which was audited or reviewed by Certified Public Accountant

(Note 11) The aforementioned inter-company transactions have been eliminated in the consolidated financial statements.

- (Note 21) Ways to Invest in Mainland China:
- 1. Direct investment in Mainland China.
- 2. Indirect investment in Mainland China through a foreign company
- 3. Others

NOTES TO CONSOLIDATED FINANCIAL STATEMENT WISTRON COROPERATION AND ITS SUBSIDIARIES

(Note 22) Recognized share of associates and joint ventures accounted for equity method:

1. The financial statements of the investee company were audited by the global accounting firm in cooperation with R.O.C. accounting firm.

2. The financial statements of the investee company were audited by the Group auditor

(Note 23) The aforementioned inter-company transactions have been eliminated in the consolidated financial statements.

2. Significant transactions

The significant transactions of the entities in China in which the Company, directly or indirectly owned, refer to Note 13(a) Information on significant transactions.

Notes to the Consolidated Financial Statements

(14) Segment information:

(a) General information

The major activities of the Group are the design, manufacture and sale of information technology products. The chief operating decision maker of the Group determines each business group as an operating segment. According to the provisions of the accounting standard, only the "Research and Manufacturing Service Department" qualifies under the quantitative threshold criteria as a reportable segment. Other operating departments are deemed immaterial and need not be disclosed as reportable segment including the client service group and the related new business investment. The performance of the department is evaluated based on the operating profit of the Group.

(b) Profit or loss data of the reporting segment (including specific revenues and expenses), assets and liabilities of the segment, the basis of measurement, and the related eliminations:

The Group uses the internal management report that the chief operating decision maker reviews as the basis to determine resource allocation and make a performance evaluation. The internal management report includes profit before taxation, but not including any extraordinary activity and foreign exchange gain or losses because taxation, extraordinary activity, and foreign exchange gain or losses are managed on a group basis, and hence they are not able to be allocated to each reportable segment. The reportable amount is similar to that in the report used by the chief operating decision maker.

The Group's operating segment information and reconciliation are as follows:
